## **STINAR SPW-500-PL POTABLE WATER TRUCK W/LIFT**

Need water? The Stinar SPW-500-PL potable water tank has a capacity of 700 gal (2650 L). This durable tank is constructed from 12-gauge stainless steel, arc-welded and leak tested. With features like internal safety baffles, breather hose, fill port and three digital level gauges, this tank checks all the boxes. Made to service both narrow and wide-bodied commercial aircraft, the Stinar Potable Water Truck, model SPW-500 is the truck of choice used to transport and dispense potable (drinking) water to an aircraft. With a Stinar-designed hydraulic system this unit provides all the power you need for pumping potable water from the water tank up into the aircraft.
