

LUMENA ALTA BY OMNIYAT: THE NEXT COMMERCIAL ICON

OMNIYAT proudly presents LUMENA ALTA, a 380-metre tower conceived as Dubai’s next commercial icon. With its graceful, spiralling façade, it will stand as the tallest commercial building in Business Bay upon its completion in 2030.

Following the sell-out success of LUMENA, OMNIYAT continues to reimagine the city’s skyline. Ascending 73 storeys high, with 45 levels of premium office spaces, LUMENA ALTA ushers in a new era of prestige and excellence in Dubai’s business district.

Positioned at the gateway to Business Bay next door to LUMENA by OMNIYAT, the development ensures seamless connectivity with panoramic views of the Burj Khalifa, Burj Al Arab, and the Arabian Gulf.

Inspired by radiance and elevation, the tower has been designed to capture and refract light, gleaming with brilliance by day and glowing from within by night. Conceived for global visionaries, it unites luxury commercial, hospitality, and lifestyle spaces within a single landmark.

The unveiling of LUMENA ALTA marks the elevation of Dubai’s business landscape and the next landmark in OMNIYAT’s visionary architectural legacy.
