

VELA SHOW RESIDENCE UNVEILED AT MARASI BAY

OMNIYAT unveils the first show residence at VELA, Dorchester Collection, Dubai, offering an intimate introduction to a world where considered architecture, exceptional interiors and the tranquil presence of the water come together in the heart of Marasi Bay.

Designed by Foster + Partners, with interiors by Gilles & Boissier, the four-bedroom Marina Residence reflects a shared vision of generous proportions, sculptural furnishings and a palette of warm, natural tones, creating a space that feels both composed and inviting.

Floor-to-ceiling glazing draws natural light deep into the residence, framing expansive views across Marasi Bay, the marina and the Downtown Dubai skyline. Living spaces extend towards generous terraces, where the water becomes a natural extension of the home. A private pool completes the experience, offering a moment of calm above the waterfront, with the city unfolding beyond.

The newly completed residence offers a first opportunity to experience the world of VELA firsthand, revealing a considered interpretation of waterfront living shaped by design, light and an enduring connection to its setting.

As the first show residence to be unveiled at VELA, this marks a significant milestone in bringing OMNIYAT's vision for Marasi Bay to life.

Book a private viewing to discover the first show residence at VELA, Dorchester Collection, Dubai.
