

Brisk works *across the places* teachers are already working.

 Brisk is a Chrome extension that *fits into your existing online routine*, offering seamless support without added complexity.

Google Chrome

Brisk Teaching fits seamlessly into your Chrome workflow, always ready in your toolbar, and supports your teaching without added effort.

- Pin Brisk to your Chrome toolbar for easy access
- Works within Google Docs, Slides, YouTube, and more
- No need to switch tabs or leave your browser

Google Forms

Create fully-formed quizzes in Google Forms with embedded answer keys, streamlining the assessment process.

- Generate quizzes in a few clicks
- Focus on teaching, not quiz creation
- Automatically include answer keys for easy grading

YouTube

Turn any YouTube video into a ready-to-use Google Slides presentation in just a few clicks.

- Customize slides by grade level, slide count, and more
- Instantly transform videos into engaging lessons
- Save time while increasing interactivity

Google Classroom

Brisk integrates seamlessly with Google Classroom, making it easy to manage assignments and feedback.

- Create worksheets, quizzes, or prompts and upload directly to Classroom
- Offer targeted and general feedback on Google Docs, PDFs, and .docx files and more
- Share Brisk Boost activities to all students via announcements or assignments

Google Docs

Brisk integrates into Google Docs, allowing you to create quizzes in just a few clicks.

- Generate quizzes directly within Docs, complete with answer keys
- Provide targeted feedback in seconds

Google Slides

Brisk simplifies the creation of Google Slides presentations, whether from scratch or based on content like articles or videos.

- Build slides instantly from various sources
- Add images, quizzes, and custom formats
- Quickly transform content into engaging presentations

Canvas

Brisk works perfectly with Canvas, allowing easy upload of content and direct feedback in SpeedGrader.

- Upload Brisk-generated content as assignments in Canvas
- Provide targeted feedback on Google Docs and other files in SpeedGrader
- Share Brisk Boost activities through announcements or assignments
