ZONING BOARD OF ADJUSTMENTS VARIANCE APPLICATION

For your request to be granted, the Zoning Board of Adjustments (ZBA) must cast 75% of votes in support of your application. For the ZBA members to vote in support of your application, you must prove several things by your application. Your application must clearly show that your property has unique conditions and circumstances which separate it from other typical properties with the same zoning; and explain how these unique conditions and circumstances make it unreasonable or unfair to apply the standard ordinance requirements to your property, unlike the way they are applied to all other properties.

The ZBA shall not approve a variance unless it finds that all of the following criteria have been met:

- a) The variance must be necessary to permit development of a specific parcel of land which differs from other parcels of land by being of such a restrictive area, shape, or slope that it cannot be developed in a manner commensurate with the development of other parcels of land in districts with the same zoning;
- b) The need for the variance is not self-created;
- c) The need for the variance is not personal or financial hardship;
- d) The requested variance does not permit a person a privilege in developing a parcel of land which would not be permitted by City ordinances to other parcels of land in districts with the same zoning district or in a manner inconsistent with the rights of properties similarly zoned; and
- e) The granting of the variance would not violate the intent of this Zoning Ordinance and would further substantiate justice.

VARIANCE APPLICATION QUESTIONNAIRE:

- 1. State the specific provision of the Zoning Ordinance for which you are requesting a variance. (You may give the Section number and paragraph, or you may describe the regulation/requirement). I am requesting a variance from the setback requirements in the Commercial District, which require a minium 15-foot setback for rear and side yards. I am also requesting a variance from the access standards which limit entrances on certain frontages, in order to allow a controoled entrance from Solimar Street.
- 2. Describe exactly how, and to what extent your request will differ from the requirements of the ordinance, as described above. (Use additional sheets if necessary). The ordinance requires 15-ft setbacks at the rear and side. I am requesting to reduce both the rear and right side setbacks to 5ft (10ft closer than required). In addition, I am requesting to allow one entrance from Solimar St through the parking setback for safer vehicle and pedestrian circulation. Which would benfit all parties.
- 3. Describe the conditions and circumstances which are unique to your property and situation: The property is a small 75X100ft corner lot with two st frontages, which creates double setbacks requirements and leaves limited buildable space. The reduced setbacks and a Solimar entrance are necessary to fit a reasonable commercial building and provide safe circulation. These conditions are unique to the lot size shape and corner and not self-created.

CITY OF ROMA DEVELOPMENT SERVICES

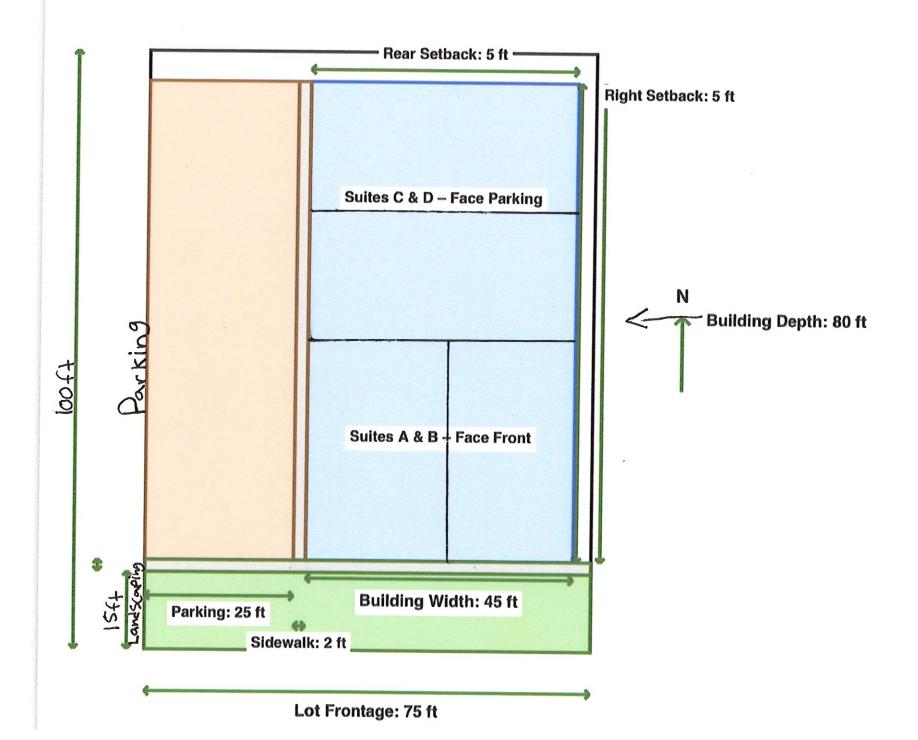

ZONING BOARD OF ADJUSTMENTS VARIANCE APPLICATION

4. Explain why these conditions and circumstances make it unreasonable or unfair to apply the standard ordinance requirements to your property: r meeting the front Setbacks, applying the full 15++ rear and risht Parking (25+1) setbacks leaves an unworkable building envelope and Concentrates traffic in one affroach. Reducing those two setbacks and allowing a Solimar entrance enables a Safe, reasonable plaza layout.

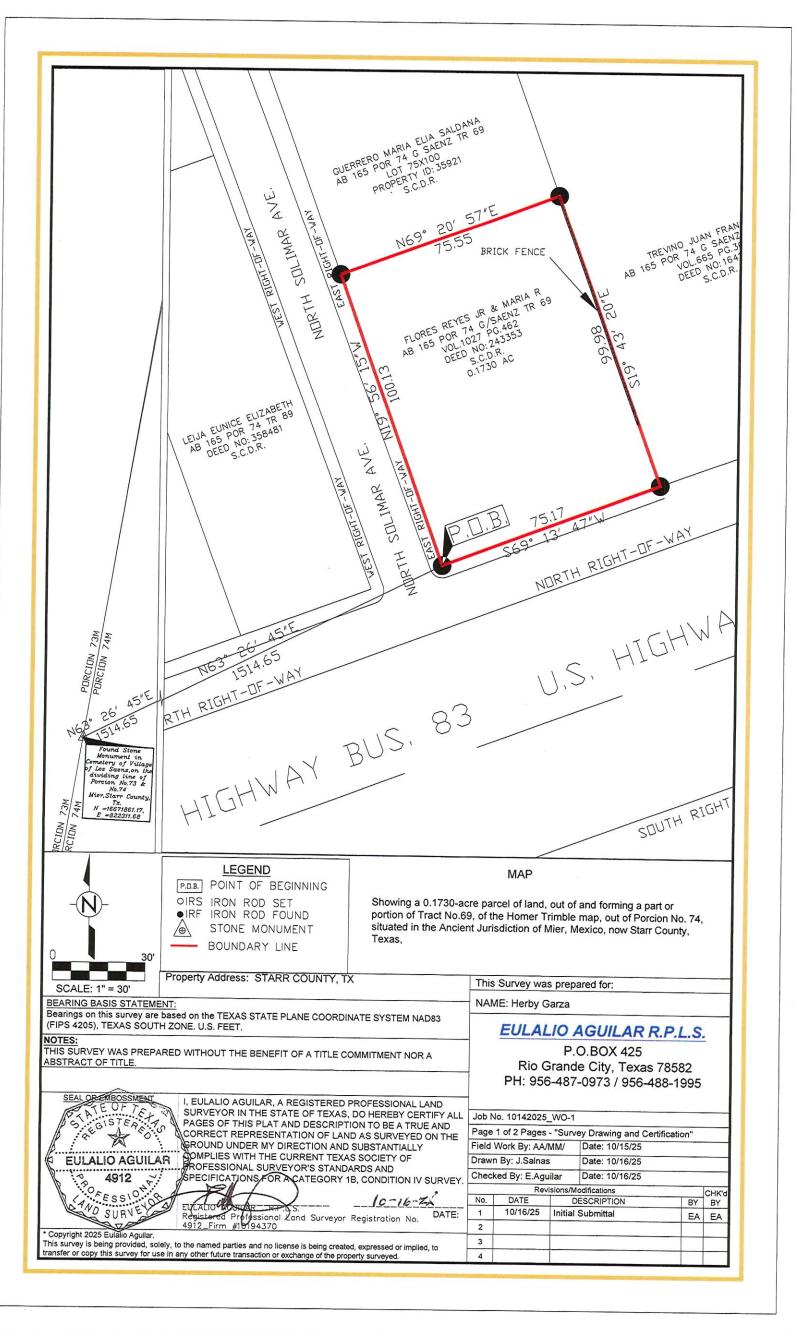

5. Why would granting this variance be only fair, and not more than fair, to you, since others are prevented from doing what you are requesting? Corner Condition. The Variance Simpl Comparably to typical interior/ deeper Other Standards are net, and the Solimar entrances improves public Safety rather than granting a special Privilege. 6. Explain how your proposal is the minimum manner by which the unique conditions and circumstances described can be overcome. List any possible alternatives to the requested variance. minimal; only reducing the rear and Right setbacks 5++ While Keeping all front building and Solimar Setbacks in place, The Solimar entrance improves safety. Alternatives building or removing parking would make the Site Unusable. QUESTIONNAIRE ACKNOWLEDGEMENT: I hereby certify that I have answered all questions to the best of my ability, and I intend for the request to be in harmony with the public welfare and will not in any way be injurious or detrimental to my neighbors and their property rights.
