PROFESSIONAL EXPERIENCE

KPMG

April 2023 - Present

Regulatory Risk Technology Consultant

New York, NY

- Re-engaged by KPMG's Internal Audit, Risk Compliance Services practice to co-deliver audit and validation workstreams across global banking clients, owning test strategy and senior stakeholder-facing delivery
- Redesigned the sampling methodology for a complex capital and liquidity calculation, leading VP-to-MD deep dives to translate calculation logic into testable assumptions and preserve complete audit coverage
- Validated attribute-level data lineage from source systems through staging to regulatory reporting outputs, building a structured clarification process with the client's head office to convert undocumented field derivations into documented mappings
- Advised engagement leadership weekly on KPIs progress, timeline risk, and preliminary findings across parallel workstreams

Tailored Industry

February 2022 - November 2022

Product Manager

New York, NY, USA

- Owned end-to-end product management for a B2B SaaS platform transformation in on-demand manufacturing, integrating the Shopify API and converting manual, sales-mediated ordering into self-serve subscription
- Improved a core operational metric for process improvement, including on-time delivery accuracy, from 68% to 85% through root-cause analysis, re-attributing customer-side delays to their actual source and redirecting remediation investment
- Reprioritized the product roadmap around a structural constraint discovered mid-delivery, sequencing product delivery releases so each shipped immediate customer value while building toward the platform fix
- Established operational constraints as a standing product roadmap input, aligning cross-functional stakeholders across sales, operations, and engineering on prioritization
- Led discovery through user research and analytics that surfaced 61% mobile traffic; defined product requirements and launched a responsive mobile order flow on schedule
- Partnered with engineering to rebuild the platform data model for multi-component inventory ahead of a holiday deadline, pairing database redesign with data validation and a simplified UI for non-technical users

KPMG

July 2016 - March 2021

Senior Consultant, Operational Regulatory Risk

New York, NY

- Designed and operated an internal issue-tracking tool for change management across 162 open issues across 21 stakeholders, 4 departments, and 3 systems, cutting status meetings and ad hoc coordination touchpoints by 40%
- Defined business requirements for an enterprise-wide database linking regulatory reporting obligations to client data systems
- Translated SEC, FINRA, CFTC, and NFA regulatory requirements into a plain-language risk inventory covering broker-dealer business activities
- Managed tracking and reporting for a backlog of issues affecting critical monitoring systems, building dashboards, project plans, and action plans that gave senior stakeholders one view of status
- Led end-to-end remediation programs from planning through implementation, coordinating cross-functional delivery across legal, compliance, operations, risk, and technology teams

MathChops

March 2020 - July 2020

Associate Product Manager

New York, NY, USA

- Aligned product strategy, roadmap, and scope to OKRs while reducing the backlog by more than 50% through a structured prioritization methodology
- Built a repeatable experimentation framework, running A/B tests on banner designs to improve sign-up conversion ahead of a homepage revamp

EDUCATION

University of Georgia

September 2011 - July 2015

Bachelor's, Economics
