FIXED CURTAIN  
MEASUREMENT GUIDE

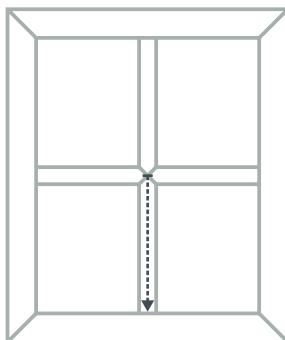

# How to measure for Inside Mount Fixed Curtains

**IMPORTANT:** You will need a minimum of 3/4" of flat mounting depth in order to mount Inside Mount Fixed Curtain Hardware.

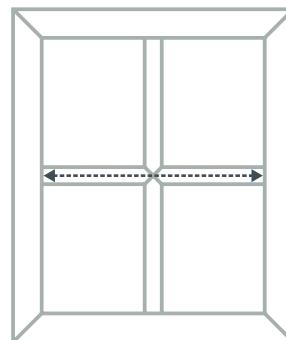

## 1. MEASURE MOUNTING HEIGHT\*

Starting from the approximate mounting height found, measure the length from that point down to the bottom inside edge of the window, rounding down to the nearest 1/8" of an inch. Record the measurement below.\*

## 2. MEASURE TOTAL WIDTH

Along the approximate mounting height found, measure the width from inside edge to inside edge of the window, rounding down to the nearest 1/8" of an inch. Record the measurement below.

**\*EVERHEM EXPERTS RECOMMEND:** Generally, Inside Mount Fixed Curtains are for window application rather than doors and we recommend mounting halfway up or 2/3 of the way up from the bottom of the window.

## Inside Mount Café Curtain Measurements

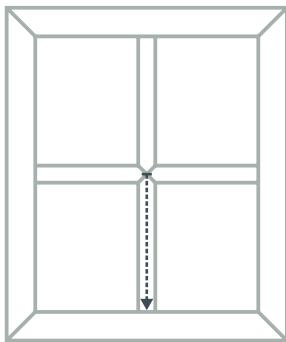

| ROOM | MOUNTING HEIGHT | TOTAL WIDTH |
|------|-----------------|-------------|
| 1    |                 |             |
| 2    |                 |             |
| 3    |                 |             |

# How to measure for Outside Mount Fixed Curtains

## 1. MEASURE MOUNTING HEIGHT\*

Starting from the approximate mounting height found, measure the length from that point down to the bottom inside edge of the window, rounding down to the nearest 1/8" of an inch. Record the measurement below.

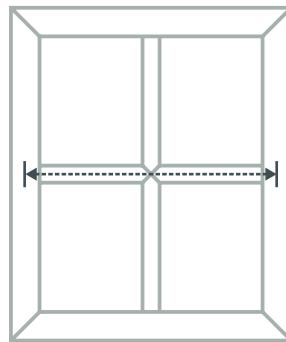

For door application, we recommend measuring the height of the glass, then adding 2" to both the top and bottom for optimal coverage and proper mounting space.\*

## 2. MEASURE TOTAL WIDTH

Along the approximate mounting height found, measure the total width you'd like to cover, rounding down to the nearest 1/8" of an inch. Record the measurements below.

For door application, we recommend measuring the width of the glass then adding 2 inches to both the left and the right for optimal coverage and proper mounting space.

---

\*EVERHEM EXPERTS RECOMMEND: Generally Outside Mount Fixed Curtains are for door application rather than windows, and we recommend covering the entire glass area on the door.

PLEASE NOTE: Ensure your total width and/or height will not interfere with your door's handle and other hardware.

## Outside Mount Café Curtain Measurements

| ROOM | MOUNTING HEIGHT | TOTAL WIDTH |
|------|-----------------|-------------|
| 1    |                 |             |
| 2    |                 |             |
| 3    |                 |             |
