# WHO WE ARE

Nepal Green Tara Foundation has always been continually working to promote development in whichever region that we have worked in.

Development is a big word and can be connected with multiple aspects, hence to be a bit more centered NGTF efforts are more towards the advancement of education at schools, ensuring that students are equipped with the proper tools to compete and advance themselves (books, stationery, clothes, health camps and others), identifying and eradicating human trafficking and most importantly protecting, guiding and supporting the future generations.

We at NGTF prioritize Development Education, basically it means that via this form of education we aim to raise awareness and understanding of how global issues affect the everyday lives of individuals, communities and societies. This will also help to develop young people's sense of civic responsibility and for them to appreciate as well as understand the root causes of poverty and inequality in the world. In order to achieve this, we work very closely with primary and secondary schools – particularly Transition Year students – to develop a tailor-made programmed in conjunction with the schools.

Components can include workshops, review of projects around Nepal, motive-based interactions and a few more. We give students an insight into life in remote parts of Nepal and our work there by looking at photos and video clips, as well as seeing how some of the people we work with actually spend their day. We also talk about the everyday realities of living in a caste-based society, women's roles and child labor in Nepal. The emphasis is on involving students and getting them to think for themselves about development issues and how the root causes of poverty can be addressed.

# CEO REPORT

What a remarkable year 2024/25 proved to be for Nepal Green Tara Foundation. Nepal Green Tara Foundation is committed to promoting sustainable development, environmental conservation and empowering local communities across Nepal Himalaya. In 2024 our efforts focused on supporting education and scholarship program and improving livelihoods in the health section by building 2 new health posts to help and improve the health issues.

## KEY ACHIEVEMENTS:

### HEALTHCARE:

**Life-saving. We have completed building 2 new health clinic centers at Nuwakot district.** For many across the Himalaya, healthcare is unaffordable and out of reach. We build and support health clinics, fund health workers and supply medicines to bring care to poor, off-the-grid communities, often to Nepalis who may have never seen a doctor before. It has been a **Life-changing experience for these Mountain Communities.** In Nepal 27% of children under the age of 15 suffer from some form of disability, often from untreated injuries that can condemn them to a lifetime of suffering and isolation.

Fundraising for our projects and new initiatives never gets easier, but at NGTF with low administrative costs, sustainable programs and continual community support we are able to be carve out highly effective and positive result oriented outcomes in all our endeavors and this is what we are here for!

We would like to thank andrea Hartman -president of Nepalhilfe Starnberg, Our special members Mr Nicolai Baehr, Mr Robert Cramer and Maria for supporting and funding our projects at Chilaune Village. We truly appreciate your help and love to the village of Chilaune.

Namaste and thank you.

**Tashi and Nima Tenzing Sherpa**  
(Founder and President NGTF)

# HOW WE DO IT

- **Bet on People.** We find local partners who have the vision and determination to help their communities and we help them grow with financial, strategic and technical support.
- **Find the Leverage.** We know the territory and intervene where we can make the greatest impact for the least cost. In the Himalayas, the difference between what exists and what is possible can be enormous and often costs very little.
- **Respect.** We respect the priorities, concerns and knowledge of our local partners, and all of our work has community participation.
- **Take the Long View.** We stay committed. Real, sustainable change takes time, effort and trust.

“ ALWAYS WORKING IN PARTNERSHIP WITH THE PEOPLE OF THE HIMALAYAS

# CHILAUNE SCHOOL

CHILAUNE SCHOOL, built in 2016 with the generous support of Nepalhilfe Starnberg, required renovation after eight years. With their approval, NGTF undertook the project, completing it in September 2025. The renovation included classroom repairs, new desks and chairs, a boundary wall, fresh paint, electrical upgrades, and washroom renovations.

We're grateful for Nepalhilfe Starnberg's support, which also covered two teachers' salaries, greatly benefiting our students' education. However, due to budget limitations, we couldn't provide school uniforms this year.

We humbly request Euro 5,270 in funding to provide school uniforms for 155 students at 34 Euro each and appreciate your consideration.
