Total Credits Required: 120

Programmatic Learning Outcomes

Graduates of the BFA in Experimental Fashion will be able to:

1. Demonstrate knowledge of art historical and contemporary contexts relating to the body, identity, and garment.
2. Develop technical and creative skills in garment construction and performance making.
3. Sustain a self-directed, research-driven creative practice grounded in experimentation and personal inquiry.
4. Critically evaluate the environmental, social, and ethical impacts of the fashion industry.
5. Engage collaboratively and professionally within communities, applying ethical standards in fashion and performance contexts.
