

WACS
Wisconsin Association of Christian Schools

2026 Teacher of the Year

Sescenee Webb

Badger State Baptist School, Oak Creek

It is our privilege to recognize this year's **WACS Elementary Teacher of the Year, Mrs. Sescenee Webb of Badger State Baptist School.**

For **30 years**, Mrs. Webb has faithfully invested her life in Christian education. For more than five of those years, she has served at Badger State Baptist School, where she teaches first grade and also serves as a summer school teacher.

Teaching first grade carries a special responsibility. These early years help establish the foundation upon which so much future learning is built, and Mrs. Webb has a particular passion for helping her students become **strong, confident readers**.

What makes that passion especially meaningful is her willingness to continue learning herself. Even after three decades in education, Mrs. Webb has spent many of her own free hours studying and taking classes so that she can continue improving the learning experience for her students. That kind of dedication demonstrates a teacher who is never content simply to do what she has always done, but who continually looks for ways to better serve the children entrusted to her care.

Her investment extends beyond academics as well. She consistently goes the extra mile for her students and is an encouragement to the families she encounters. Her faithful service and caring spirit have made a tremendous contribution to the staff and families of Badger State Baptist School.

Thirty years of Christian education represents countless lessons taught, books read, children encouraged, and lives touched.

It is our honor to recognize **Mrs. Sescenee Webb of Badger State Baptist School as the 2026 WACS Elementary Teacher of the Year.**

Congratulations, Mrs. Webb!
