(es werden max. die letzten 3 Stationen angezeigt):

Manager in the Transaction Advisory / CFO Advisory

2016 - Aktuell

- Project 1 (IFRS accounting manual): Advised an agribusiness group on IFRS 16 implementation, focusing on lease portfolio analysis (e.g. land, machinery), financial impact on EBITDA and net debt and compliance with group reporting and audit standards.
- Project 2 (group consolidation): Advised on the implementation of a reporting package to align local Brazilian GAAP financials with the German parent company's HGB requirements. Supported the reconciliation process and ensured proper mapping of accounts and adjustments for group consolidation. Enhanced the quality and consistency of cross-border financial reporting within the group.
- Project 3 (cost analysis): Provided audit-related advisory services focusing on cost structure and expense recognition under Brazilian GAAP. Analyzed whether production and operational costs were properly captured and allocated. Identified cost inefficiencies

and developed recommendations to enhance transparency and cost effectiveness, aligned with HGB reporting expectations.

- Deal 1 (Sell-side): Led financial due diligence for the acquisition, including analysis of financials under US-GAAP and HGB. Conducted a pro forma consolidation under HGB, converting US-GAAP figures to ensure compliance with German reporting standards
- Deal 2 (Buy-side): Supported the sell-side in the sale by contributing to the Financial Fact Book preparation, including analysis of historical performance, normalized earnings and working capital trends. Ensured clear presentation of financial KPIs, deal-relevant adjustments and underlying profitability to support investor discussions and due diligence.
- Deal 3 (Buy-side): Supported in the buy-side financial analysis for the potential acquisition of civil aviation business, focusing on the carve-out of commercial aviation from military operations. Prepared standalone financials, analyzed key valuation drivers and assessed regulatory and integration risks.
