E-LOGS APP

Maintain compliance and driver safety with T3 E-Logs

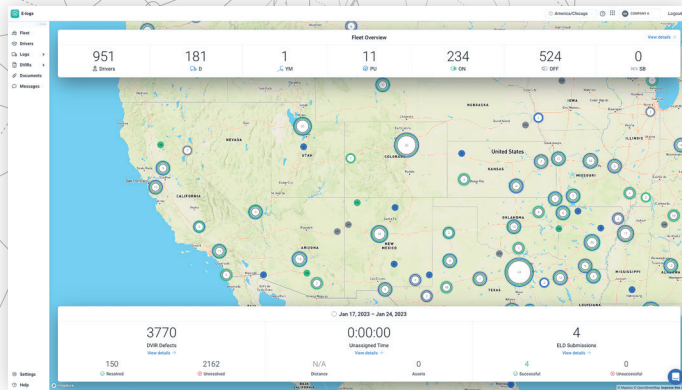

E-Logs

Features to Increase Compliance and Safety

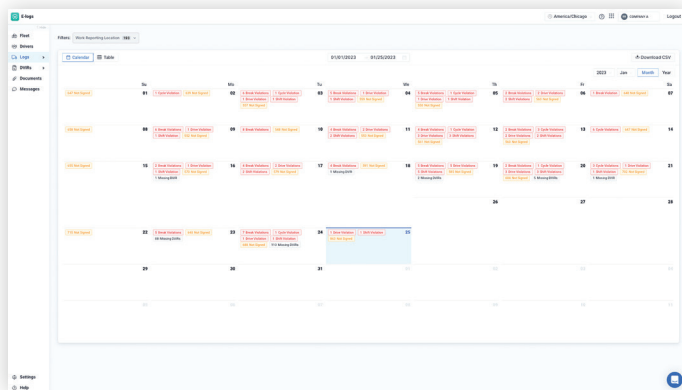

T3 E-Logs is your hub for complete ELD compliance and driver time tracking. The easy-to-use app can automatically record driver hours and create timecards, daily logs and eRODS. Save your drivers and supervisors time with one solution that makes it easy to log, review and approve driver logs.

Data Dashboards

Real-Time Notifications

ENHANCE VISIBILITY

Assign drive time to a project, work order, job code or project phase. View driver behavior history, time sheets and operator activity from a mobile device or laptop. Track defects and swiftly address them with the app's DVIR logging feature.

INCREASE PRODUCTIVITY

Drivers can clock in and out via the mobile app and digitally record HOS and RODS to save time. Share records with DOT or law enforcement with a few clicks of a button to get back on the road fast.

T3 INTEGRATION

Use T3 E-Logs alone or with the entire T3 suite for additional functionality. Assign driving time to a profit center in T3 Work Orders and get a true picture of project costs. Add non-driving time with T3 Time Cards and get a complete picture of employee activity.

Digitize driver compliance and increase roadway safety with T3 E-Logs.
