

BAY & BOW

Five Wide Bow with Casement Flankers

Add space, light and a uniquely elegant look to your home with a custom bay or bow window. CrownView bay and bow windows dramatically change the appearance and feel of almost any room in a way that is certain to increase the value and splendor of your home. Bay and bows open up your room for more light and visibility to enjoy the outside from inside.

CrownView bay and bow windows feature:

- Custom sizes with various options for projection and seat board
- A combination of operable and non-operable windows
- Added value and curb appeal to your home
- Narrow frame and sash to maximize glass view
- One unit construction for strength and energy

Choose which windows you would like to operate.

Most customers choose to have the end windows (flankers) operate and the rest fixed.

Bay Window with Casement Flankers

Four Wide Bow with Casement Flankers

Color Choices

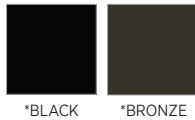

Many color and laminate combinations are available. Choose from same exterior and interior solid vinyl colors, interior laminate woodgrains, interior and exterior solid color laminations, or exterior and interior paint coatings. Warranty covers both exterior and interior laminates and paints. See warranty for details. Actual colors may vary from those shown.

Exterior/Interior Colors

WHITE SANDSTONE CLAY

Exterior/Interior Laminates

*BLACK *BRONZE

**Laminate Exterior/Interior available for Casement and Picture Windows Only.*

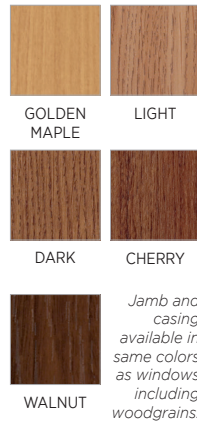

Double Hung and Sliders, do not offer exterior laminate, but paint is available.

Exterior/Interior Coatings

**Custom color matching and custom laminate colors are available for larger jobs.*

Woodgrain Interior

Jamb and casing available in same colors as windows including woodgrains.

Head/Seat Board & Jamb Options

Head and seat boards are the ceiling and floor of your bay or bow window. Head and seat boards are available in birch, oak, white laminate and insulated oak. All woods are unfinished; however, you may choose to have us stain the head and seat boards to match your windows. Stain may vary slightly from the woodgrain on the windows. You may also choose to have your bay or bow built without the head and seat boards.

Quality Rod & Cable Support

Pinnacle bay and bow windows are reinforced with steel threaded rods that run through the window mullion for added strength and support. Cables attach to the exterior of the home providing top-of-the-line support to the window unit.

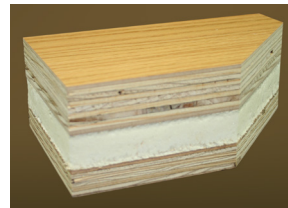

Quality Manufacturing

Each bay and bow window is assembled locally by a team that specializes in mulled units, ensuring that your bay and bow window will be of the highest quality.

Weather Tight Construction

Units are sealed with silicone and foam insulated for the tightest seal possible.

Insulated Head/Seat Boards

Pinnacle bay and bow windows are available with an optional insulated head and seat board for added warmth. Available on bays and bows up to 10 feet.

Casement Blind Option

Casement blinds tilt, raise and lower. The blinds are either in a removable glass panel or a sealed tempered IG unit. Hardware and blinds are white for IG units. Panel blind hardware is always white, but panel blinds are available in several colors.
