

Impact Services Catalogue - Thrive Pro+

Launch support

As you launch your new Thrive Platform, our team of experts will support you to understand the measures of success you're looking to achieve. We'll get hands-on in your project, enabling you to drive excitement and engagement and measure your impact.

- Workshop to understand measures of success and plan launch strategy
- Design support to take the pain out of branding and set up
- Planning and design of campaigns to drive your launch strategy
- Bespoke digital assets, created to drive awareness and excitement for your launch
- Expert Data Analyst support to measure impact for the first month, including a launch dashboard

The details

Bespoke branding	Our design and marketing team will allocate 10 hours to developing your bespoke L&D brand, including a custom colour palette, a unique logo, and tailored designs. This will be created in consultation with you and your brand lead.
Campaigns & creative support	A library of assets for your platform. Choice of templates which can be customised with brand colours and elements to make bespoke to company branding.

Learning Projects

As an Impact Thrive Pro+ customer, you'll also get direct support from the Thrive team for learning initiatives at your organisation. Whether you're looking to increase performance or reduce costs, our team can provide you with guidance and support in shaping your project and demonstrating success.

- Workshop to understand measures of success and plan your project strategy
- Planning and design of campaigns to drive your project strategy
- Expert Data Analyst support to help you define your strategy and scope BI dashboards needed to measure success
- Executive summary providing insights into the impact of the project for your stakeholders
- Support with awards submissions

The details

Project support	Support from the Thrive team for up to two projects per year. Your project team will be available to you for a 2 month period for each project. We will also offer 2 check-ins post completion and an executive results summary.
Impact workshop	Project workshop for each project to agree scope of project, align data sources, set timelines, actions and deliverables.
Data Analyst	A data Analyst who will bring their analytical expertise and consult on each project, as well as organising support to meet your organisations data needs. Your analyst will reserve <u>four</u> hours per week to work on your project.

Project dashboard	<p>Designing and scoping custom dashboards which may be needed for your project, with access shared with up to 6 individuals.</p> <p>These dashboards could include data from external sources, supporting sales data, customer survey results or quality scores for example to demonstrate and measure the impact of your projects</p>
Marketing Consultancy	Maximising your project by defining the marketing scope, engaging your target audience, developing a strategy & support with planning and executing campaigns.
Asset refresh	Our design and marketing team will dedicate 6 hours to refreshing your platform assets, including thumbnails, explore tiles, campaign banners, and logos, to keep the platform user experience fresh and engaging.
Custom project results (award submission ready)	A written summary of the impact project and its results which can be used to engage senior stakeholders, showcasing metrics such as ROI, create case studies and enter for awards.
Award submission support	Written support to enter Impact Projects for awards identified as viable by Thrive and the customer. Furthermore, Thrive will offer paid support for up to one project per year to be submitted for an award.
Event Consultancy	Support with planning and executing compelling events to support impact and customer goals.

Outside of projects

Once the platform has launched, and outside of any impact projects, the Thrive team will still be available to support your team.

The details

Data Analyst consultancy	Support from our expert data analysts, offering up to 2 hours of surgery time every week for consultation or scoping changes to existing dashboards.
