

INVENTORY AI THAT DELIVERS REAL RESULTS

Five proven benefits of fast, accurate inventory counts with NomadGo.

#1 HIGHER PROFIT

Fast, accurate counts give you a clear view of every product on every shelf. With daily visibility, operators reduce waste, lower COGS, and protect margins across every location.

#2 TIGHTER CONTROL

Frequent, precise counts create a reliable inventory signal for finance and operations. This reduces unexplained variance, improves forecasting, and aligns books with reality.

#3 INSTANT PAYBACK

NomadGo works on phones and tablets with no fixed hardware to install. Customers see quick gains through labor savings, lower waste, and better product accuracy.

#4 ALWAYS STOCKED

With fast, frequent counts, teams know exactly when items run low. Real time visibility improves replenishment and keeps shelves and makelines ready for guests.

#5 BETTER EXPERIENCES

A simple, intuitive interface makes counting easy for any team member. Less time in the back and more time on the floor leads to faster service and happier customers.
