

## Mine Engineer-In-Training

Osisko Development Corp.'s ("Osisko Development" or the "Company") wholly-owned subsidiary, Barkerville Gold Mines Ltd, is currently seeking a highly motivated individual to be part of the team at its flagship Project, Cariboo Gold Project, as a Mine Engineer-In-Training in Wells BC.

This position's work will primarily be located at the project in Wells BC. on a 4 days on 3 days off rotation.

Reporting directly to the Superintendent, Technical Services, the EIT will apply their engineering knowledge gained from prior engineering training and work experience to contribute to the process of engineering from conceptual designs to the final detailed construction plans. The role will alternate between Wells office and site environment to expose the incumbent to the many facets of the mining industry. The successful candidate will manage the day-to-day activities by optimizing productivity in accordance with goals and scheduling while demonstrating a strong personal commitment to safety and the environment.

### Main Responsibilities

- Be a leader for the safe and sustainable development of the Cariboo Gold Project
- Assist engineers in carrying out technical tasks requiring accuracy in calculations, completeness of data, drawings and adherence to prescribed methods
- Prepare plans, designs and calculations based on specifications provided
- Assist with conducting field work and coordination of mining activities
- Communicating with crews and supervisors
- Monitoring progress against design specifications
- Maintaining accurate records
- Become knowledgeable with mine operations and equipment and assist with mine development when the opportunity arises. This will include working underground and operating underground equipment, once approved and signed off
- Perform according to Safe Operating Procedures
- Other duties as assigned

### Skills and Abilities Required

- Strong technical skills
- Must be able to communicate effectively, both verbally and in writing.
- Work effectively to tight deadlines

- Strong problem solving and analytical skills
- Total commitment to health and safety
- Reliable, punctual, and trustworthy
- Strong work ethic, ability to work unsupervised
- Physically fit and able to work in an underground work environment
- Clean criminal record
- Attention to detail
- Ability to thrive in a fast-paced environment
- Collaborating with the site team
- Candidates must be eligible to legally work in Canada
- Valid Drivers' License

## Qualifications

---

- Completion of a degree in Mining Engineering or be enrolled in Mining Engineering University program
- Experience in underground operations would be an asset
- Total commitment to health and safety

## Benefits

---

- Extended Health, Dental, Vision Care
- Disability Insurance
- Life Insurance
- Employee Share Purchase Plan

This is an exciting opportunity to join a Company that is making its mark in the mining industry. This role has breadth offering the candidate great experience in an operating environment.

The estimated base annual salary range for this position is \$70,000 - \$80,000. The salary offered will be commensurate with relevant skills, knowledge, and experience.

**Send your resume and cover letter to [jobs@osiskodev.com](mailto:jobs@osiskodev.com). The candidates under consideration will be contacted directly.**
