

Environmental Coordinator

Osisko Development Corp.'s ("Osisko Development" or the "Company") wholly-owned subsidiary, Barkerville Gold Mines Ltd, is currently seeking a highly motivated individual to be part of the team at its flagship Project, Cariboo Gold Project, as an Environmental Coordinator in Wells BC.

This position's work will primarily be located at the project in Wells BC, this will be a 14 days on 14 days off rotation.

Reporting directly to the Environmental Superintendent, the Environmental Coordinator is responsible for plans, schedules, supervision, and assistance with tasks to achieve and maintain compliance with environmental requirements, provincial/federal Acts, Codes, and regulations. The role will manage day-to-day activities by optimizing productivity through objective and target setting while demonstrating a strong personal commitment to safety and the environment.

Main Responsibilities

- Demonstrate leadership in health, safety and environmental matters to ensure unsafe practices or non-compliant behaviors do not occur
- Supervise environmental technicians, summer students, and contractors
- Deliver staff environmental training/awareness/orientation programs
- Oversee and supervision of current monitoring, sampling, and management of reporting regimes at Cariboo Gold
- Identify opportunities to improve environmental management for the project and take the initiative to implement the required measures
- Work to uphold all environmental regulations, regulatory permits, plans, and certificates, to ensure activities are conducted in an environmentally safe and efficient manner
- Perform internal inspections and corrective actions and facilitating regulatory inspections
- Assist in the formulation, preparation, and implementation of environmental programs, schedules, budgets, and supporting permitting requirement as needed
- Maintaining positive relationships, representing the company positively in the community
- planning, organizing, coordination, scheduling resources/tasks, technical review, report writing, Quality Assurance/Quality Control, and field technical support as required to implement the Environmental Management System for the company
- Assist in the development of and upholding standard operating procedures, ensuring that the company remains in compliance
- Performing other related duties as required.

Skills and Abilities Required

- Demonstrated experience motivating, supervising, and directing workers
- Strong health and safety attitude and leadership capability
- Ability to apply the principles of sustainable development
- Team-orientated and results-focused, fast learner and problem solver (critical)
- Familiarity with environmental database software management, especially EQWin is considered an asset
- Excellent skills with Microsoft Office software/tools
- Excellent planning, problem-solving, and supervisory skills
- An ability to foster high-quality relationships with regulatory professionals
- Demonstrated ability to adapt to dynamic and changing schedules and priorities
- Excellent written and verbal communication skills – must be able to communicate with all levels of the organization and stakeholders, including the public and regulators.
- Report writing, data analysis, scheduling, report editing/production, statistical analysis

Qualifications

- Minimum of 5 years of related experience
- University/College degree in an environmentally related discipline
- Experience with environmental planning, technical field work, logistics coordination, supervisory activities, and report writing for the natural resource industry/consulting
- Applicable technical experience includes any MLARD sampling, water sampling, aquatic data analysis, sediment/erosion control, hydrology, reclamation, hazardous waste management, meteorology, vegetation surveys, and wildlife mitigation
- Knowledge of federal/BC regulations, legislation, and agencies governing the exploration and mining industry and specific experience with environmental management in the BC mining industry is preferred
- Registered, or immediately eligible, for professional registration with the British Columbia professional association (ie, RPF, P.Ag., R.P.Bio., P.Geo).

Benefits

- Paid time off
- Extended Health, Dental, Vision Care
- Disability Insurance

- Life Insurance
- Employee Share Purchase Plan

This is an exciting opportunity to join a Company that intends to make its mark in the mining industry. This role has breadth offering the candidate great experience in an operating environment.

The estimated base annual salary range for this position is \$95,000 - \$105,000. The salary offered will be commensurate with relevant skills, knowledge, and experience.

Send your resume and cover letter to jobs@osiskodev.com. The candidates under consideration will be contacted directly.
