

TACTICAL MOBILITY TRAINING

ABOUT OVERLAND EXPERTS

Our goal is very simple – To provide our DoD and State customers with the skills necessary to predictably and safely negotiate any terrain, in any vehicle, anywhere in the world. Our comprehensive COI comes from over twenty-five years of experience training elite military teams in the operation, recovery, and expedient repair of tactical off-road vehicles.

CORE COMPANTENCIES

Our curriculum is designed to teach the science of off-road driving in three core areas: Driving, Recovery, and Repair all under the umbrella of an adaptable, well-thought-out, and executed plan. Prior-Established Commercial Classes are also available.

- + Tactical off-road driver traing in multiple vehicle platforms: NSCV, LTV, M-ATV, LTATV, Motorcycle.
- + Field expedient repair of multiple vehicle systems
- + Thorough instruction in effective and safe vehicle recovery, all dynamic and static recovery systems
- + Route selection, planning, and navigaiton
- + MTT (Mobile Training Team)
- + Large and varied fleet of non-standard vehicle platforms in gas, diesel, manual and automatic transmission
- + Troy, NC Location, East Haddam, CT Location, Salt Lake City, UT Location (BLM/State Permitted)
