Lean Back

The Lean Back lounge chair was originally created in 1957 by the Danish designer, Arne Hovmand-Olsen, who was well known for his innovative, Scandinavian style furniture design. Lean Back is an elegant, reclining lounge chair. The lounge chair is comfortable to sit in, perfect for long conversations around the coffee table or immersion in the world of books and magazines. What is particularly special about the design of the Lean Back lounge chair is that it looks beautiful from any angle, so it can stand freely in a room.

The lounge chair comes with leather seat cushions for a classic look or upholstered seat cushions in canvas or velour for a more courageous look.

The frame is available in two types of wood.
