## Cow Horn Chair

The iconic Cow Horn Chair was originally designed in 1969 by the Danish furniture designer, Knud Færch. The Cow Horn Chair is also known as 'Model 521', and is one of the archetypal designs of Danish Modernism. The Cow Horn Chair is remarkable for its masterly craftsmanship and unique comfort, and an iconic design, which reflects the idiom of the era. In the Cow Horn Chair, Knud Færch's lifelong love of wood and understanding of craftsmanship are manifested in a timeless design, which is rooted in the nature of wood. The furniture designer was especially intrigued by the idea of a chair as a sculptural element.

True to the design spirit of the 1960s, the dining chair is available in solid walnut, oak or a connoisseur version in mixed woods.

**Product name:** Cow Horn Chair  
**Designer:** Knud Færch  
**Design year:** 1969  
**Furniture type:** Dining Chair  
**Launched:** 2018
