Bruna Stool

Inspired by the pleating process of Maison Lemarié with Atelier Lognon, this stool reflects our deep respect for craftsmanship and haute couture. Our inspiration comes from various details and places, and in this case, fashion and the artisanal work of sewing have been a clear source of creativity. Interpreting one of the pleating work rolls, we have hand-carved this stool from a single block of solid teak wood. Available in two versions, Bruna and Carla, which can be presented together or separately, this stool combines tradition and modern design in a unique and elegant piece.
