

Bruma Chandelier *Sparse*

SALESHEET

GIOPATO & COOMBES

A winter day, still and silent. A place suspended in time and space. A soft mist had arrived slowly, ending up enveloping everything around us.

The Bruma collection is a balance between density and absence. Something that leaves space, and this is an integral part of a structural, compositional, and material level.

Among these and with a detailed positioning study, we inserted the modules with illuminating profiles. The luminous effect is enhanced thanks to the semi-transparent nature of the glass, balancing shadows and lights.

We worked the glass matter by hand, using the cast glass technique, to create different modules of glass, in a semi-transparent slightly raw texture, like thin condensations of mist.

METAL FINISHES

SILVER PLATED

BLACKENED NICKEL
