Gem Pendant

SALESHEET

GIOPATO&COOMBES

Two sidereal collections are born from an imaginary journey To the Moon and Back. One is Gem, which is inspired by material purity and the magnetic force that envelops us as we walk on the lunar surface.

Made of stardust, soft and elongated gems are created in linear, circular and vertical compositions, like crystal sculptures.

Thanks to the positioning of the gems and their particular texture, the light effect is subtly bright and soft, embracing the living space.

Creations in bright clusters or vertical brass stems. Position and dimension vary with the number and length of the gems, made in hand-blown borosilicate glass with a corroded glass finish that recalls a white moon dust coating.

METAL FINISHES

BRUSHED BRASS

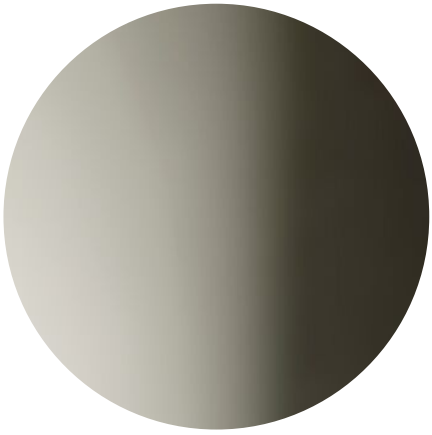

BRUSHED BRONZE

BLACKENED BRASS

BRUSHED NICKEL

POLISHED NICKEL

Creations in bright clusters or vertical brass stems. Position and dimension vary with the number and length of the gems, made in hand-blown borosilicate glass with a corroded glass finish that recalls a white moon dust coating.
