SALESHEET

GIOPATO&COOMBES

Inspired by the fleeting colourful dance of soap bubbles, each sphere becomes a suspended universe, vibrant and transparent, reflecting the world in infinite hues.

The coloured glass is brought to life through the ancient technique of lustre, where metal oxides create shifting veils of iridescence.

A single and thin lamp, a functional and ornamental accent that combines noble and pure materials. The light is warm and enchanting, creating a refined atmosphere in the space.

A composition of six spheres of transparent glass, enhanced with maximum lightness and at the same time resistance thanks to the borosilicate glass material. Supported by brass with a proprietary Softspot light source, and by a base of pure Italian marble, with its organic or smooth texture and simple elegance. Different metal finishes available.

METAL FINISHES

BRUSHED BRASS

BRUSHED BRONZE

BLACKENED BRASS

BRUSHED NICKEL
