Bolle *Table*

SALESHEET

GIOPATO&COOMBES

Inspired by the fleeting colourful dance of soap bubbles, each sphere becomes a suspended universe, vibrant and transparent, reflecting the world in infinite hues.

The coloured glass is brought to life through the ancient technique of lustre, where metal oxides create shifting veils of iridescence.

A table lamp where the lightness of a bubble meets the fullness of colour. The sphere catches the light and returns it differently with every glance, while the base gives the luminous object body and presence.

A single sphere of transparent glass, light and pure as in the original Bolle collection, rests on a coloured resin base. Colour does not coat the surface but fills the material entirely, with an effect between matte and glossy. Softspot V2. Bases available in 9 colours: Almond, Banana, Beetroot, Chocolate, Kiwi, Lavanda, Mint, Papaya, Sky Blue
