Pendant

SALESHEET

GIOPATO&COOMBES

Inspired by the fleeting colourful dance of soap bubbles, each sphere becomes a suspended universe, vibrant and transparent, reflecting the world in infinite hues.

The coloured glass is brought to life through the ancient technique of lustre, where metal oxides create shifting veils of iridescence.

Bolle Pendant is a suspension lamp that embraces the light of the Softspot source, with its double emission upwards and downwards, playing with the reflections on the surfaces of the small spheres.

From the encounter between hand-blown glass and brass. The borosilicate glass, with the spheres and satellites made one by one, allows greater resistance to heat during processing with the Murano "a lume" glassmaking technique and guarantees stability. The brass illuminating body can be provided with different metal finishes.

METAL FINISHES

BRUSHED BRASS

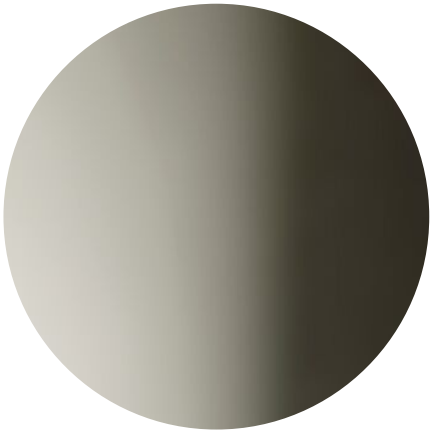

BRUSHED BRONZE

BLACKENED BRASS

BRUSHED NICKEL

POLISHED NICKEL

From the encounter between hand-blown glass and brass. The borosilicate glass, with the spheres and satellites made one by one, allows greater resistance to heat during processing with the Murano "a lume" glassmaking technique and guarantees stability. The brass illuminating body can be provided with different metal finishes.
