

AI video security for religious institutions

AI-powered video security designed to simplify and unlock greater visibility across locations.

Meet the all-in-one Lumana platform

Modern video security meets next-generation AI

Cameras

Enhance existing cameras or use Lumana cameras covered by a lifetime warranty.

Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

Real-time AI alerts

Notifications for weapons, banned individuals, or unauthorized supply access.

Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

Intuitive, enterprise-grade video management system

Manage all cameras and locations from a single pane of glass and use AI-powered tools to accomplish complex tasks in minutes rather than hours.

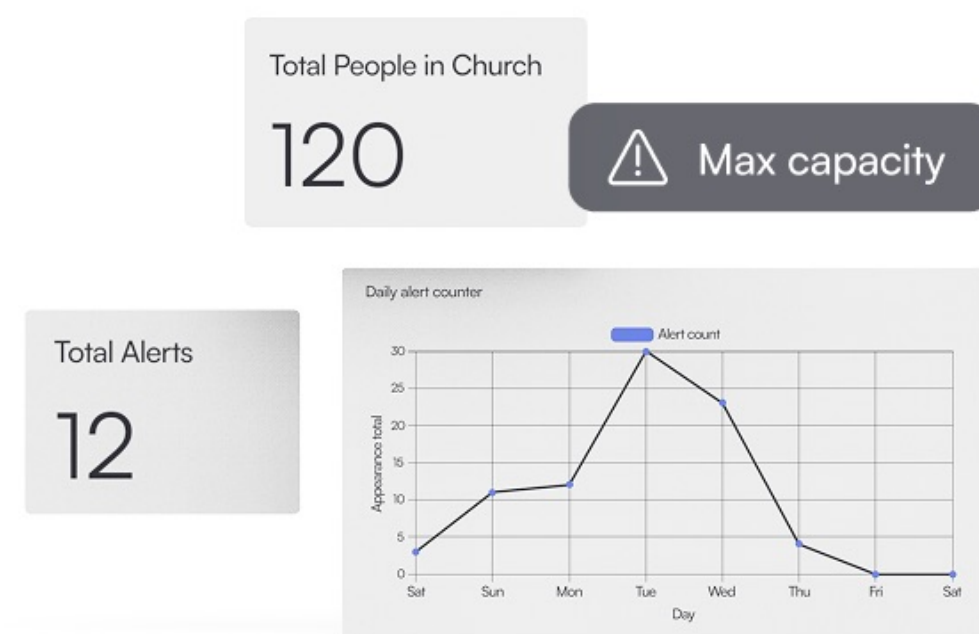

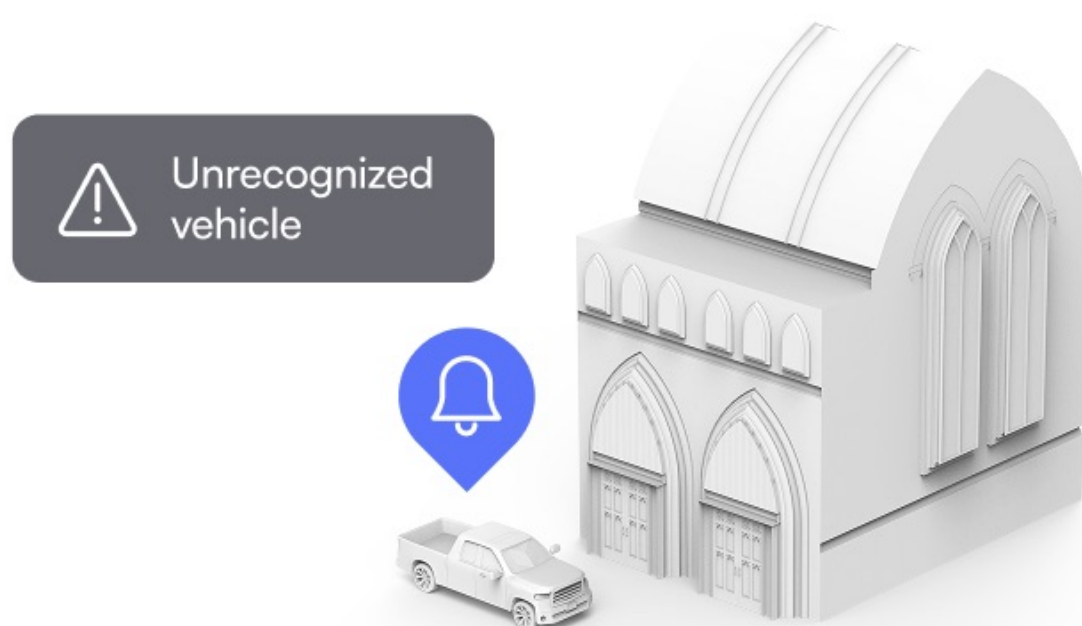

Advanced AI for unmatched visibility and control

Leverage best-in-class AI to identify suspicious activities, such as untrusted people or vehicles, loitering, equipment tampering, and more.

Actionable insights for real-time response

Gather live data from video to proactively resolve issues before they escalate and receive real-time alerts when unwanted activity occurs on any camera.

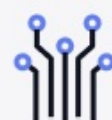

Reduce false alerts with continuous situational learning

Lumana enables every camera to learn your environment, allowing you to receive real-time notifications with up to 90% fewer false alerts.

STANDARD FEATURES. ANYTHING BUT STANDARD.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

Automatic updates for new AI and upgrades

Dedicated onboarding, training, and support

Enhance security and operations with AI

Threats

Violence/aggression
