

AI video security for government

AI-powered video security designed to simplify and unlock greater visibility across municipalities.

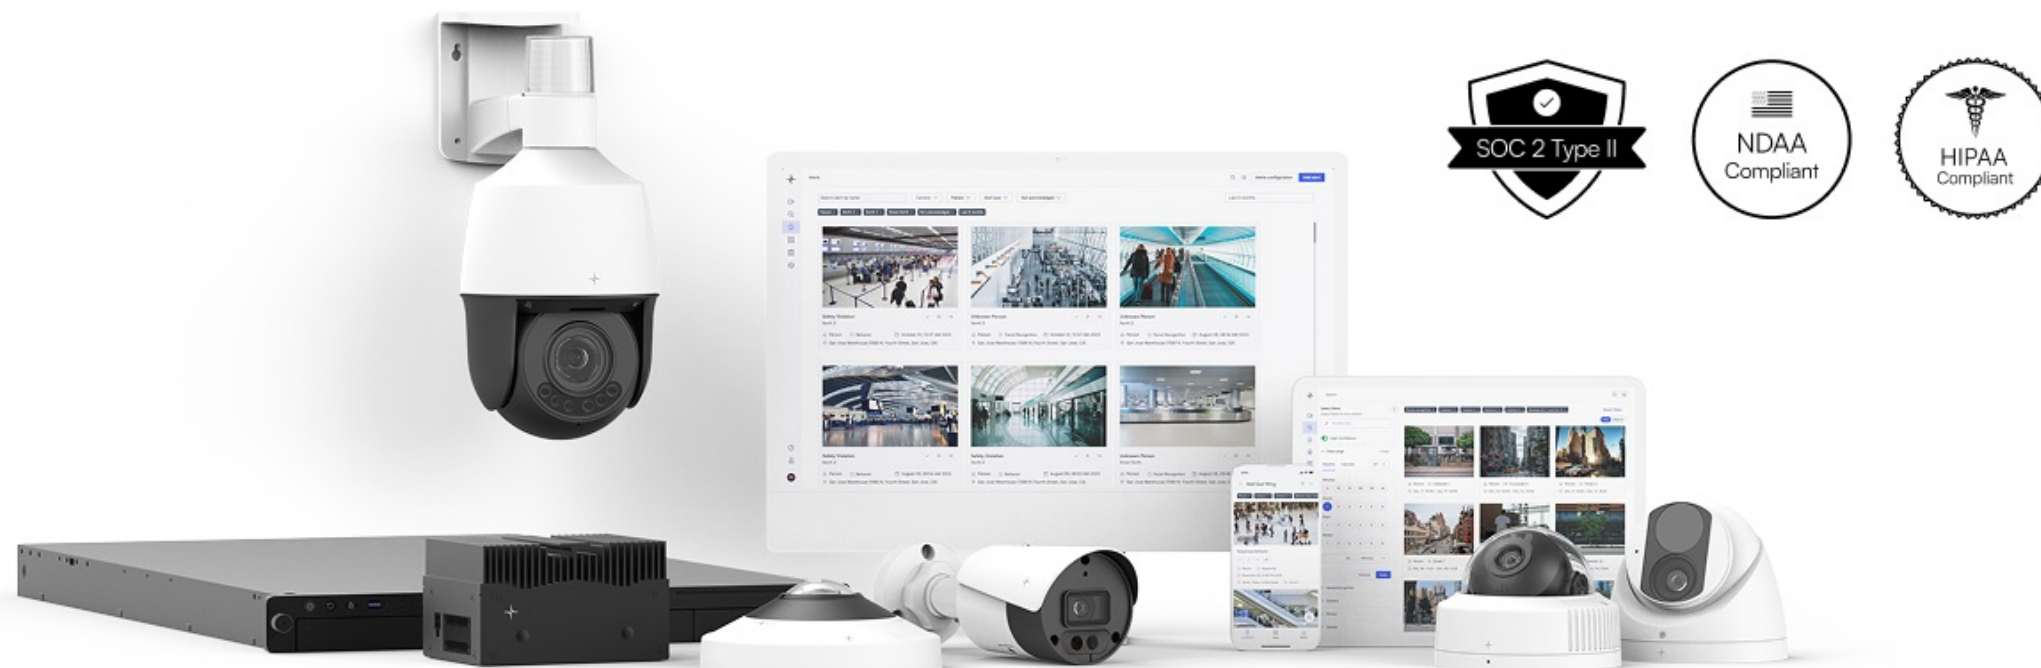

ALERT

Threat detected

Meet the all-in-one Lumana platform

Modern video security meets next-generation AI

Cameras

Enhance existing cameras or use Lumana cameras covered by a lifetime warranty.

Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

Real-time AI alerts

Notifications for unusual behavior, untrusted faces, loitering, vandalism, and more.

Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

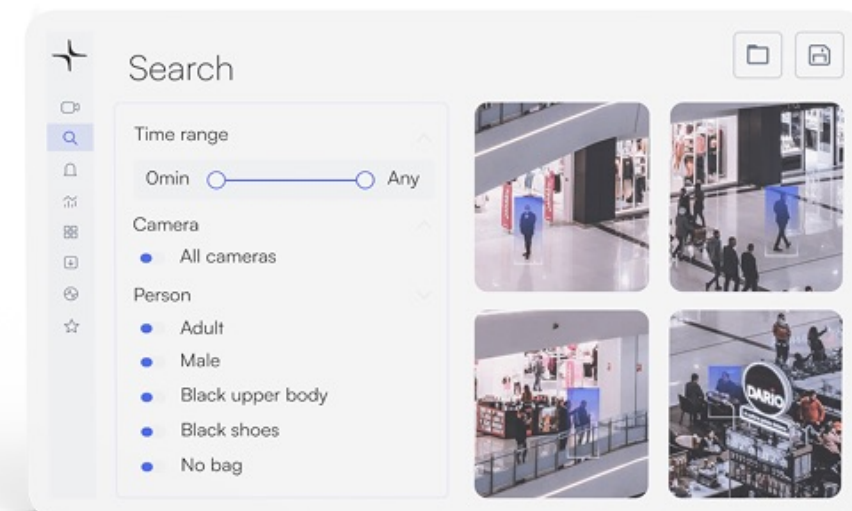

Protect citizens and communities

Do more than just capture video. Use natural language to create real-time AI alerts for unwanted activity across municipalities.

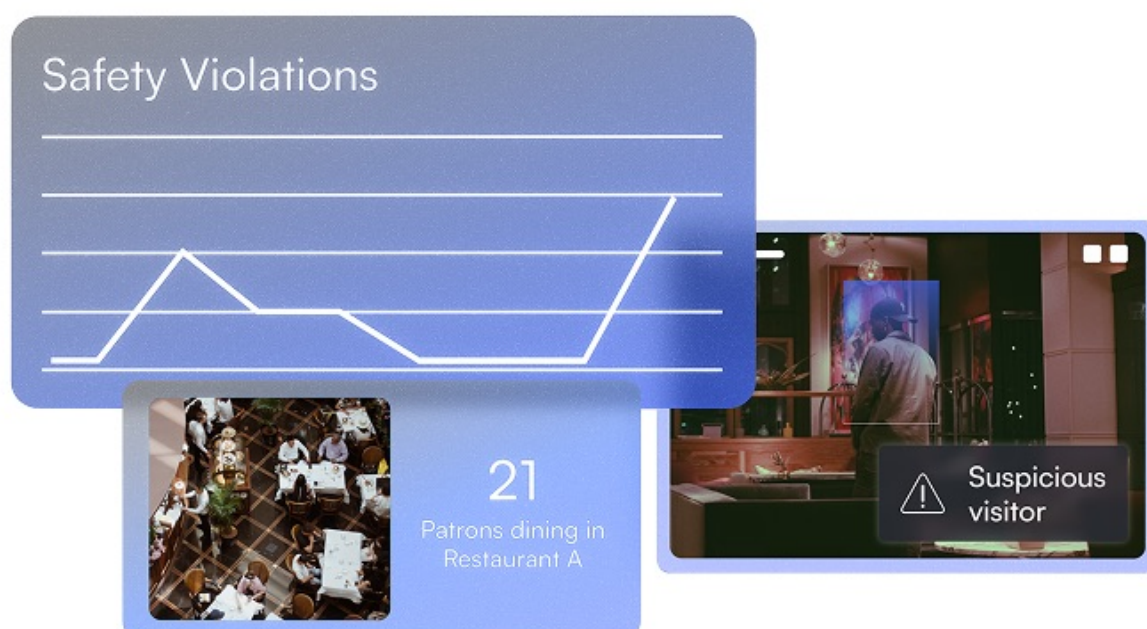

Unified video security management

Deploy and manage unlimited cameras with no user limits. Gain city-wide visibility and unify security across sites to one central platform.

Investigate and resolve incidents

Get the whole story. Easily search millions of hours of video in seconds and share footage with first responders in just a few clicks.

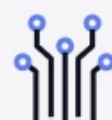

Drive smarter decisions with data

Create customizable dashboards to collect live data from video to analyze safety, traffic, crowd, response, and illegal dumping trends.

STANDARD FEATURES. ANYTHING BUT STANDARD.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

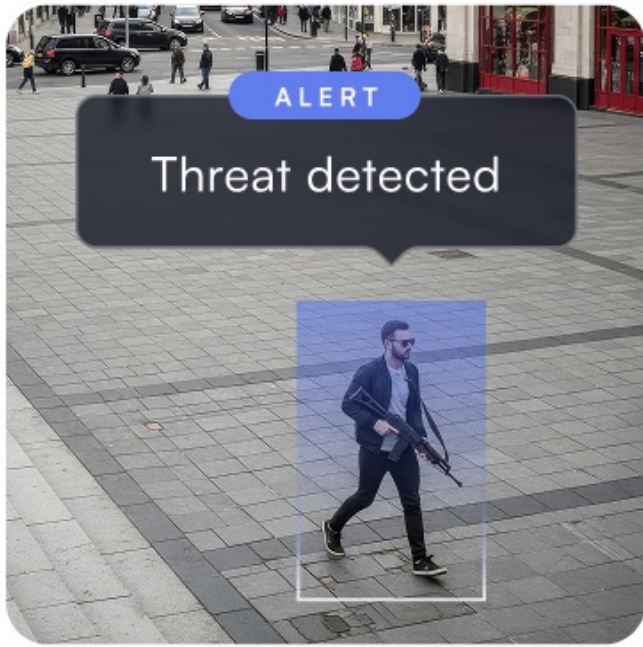

Automatic updates for new AI and upgrades

Dedicated onboarding, training, and support

Enhance government security and operations with AI

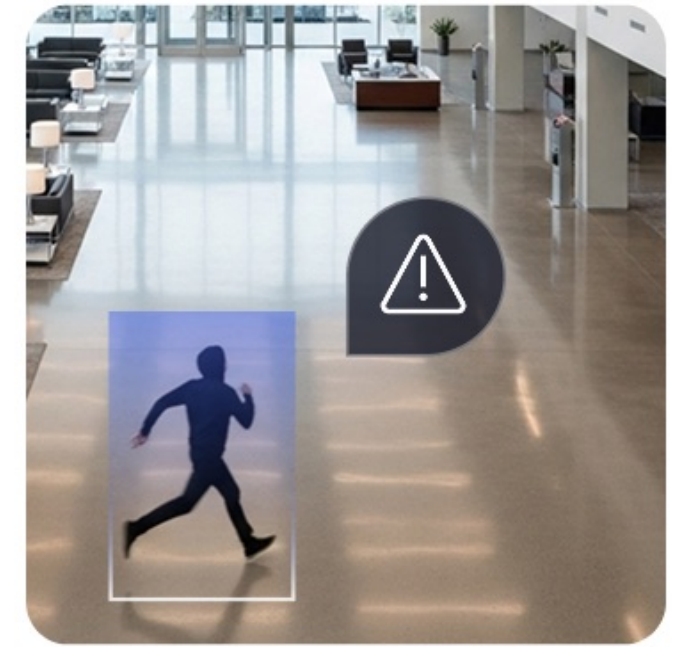

Threats

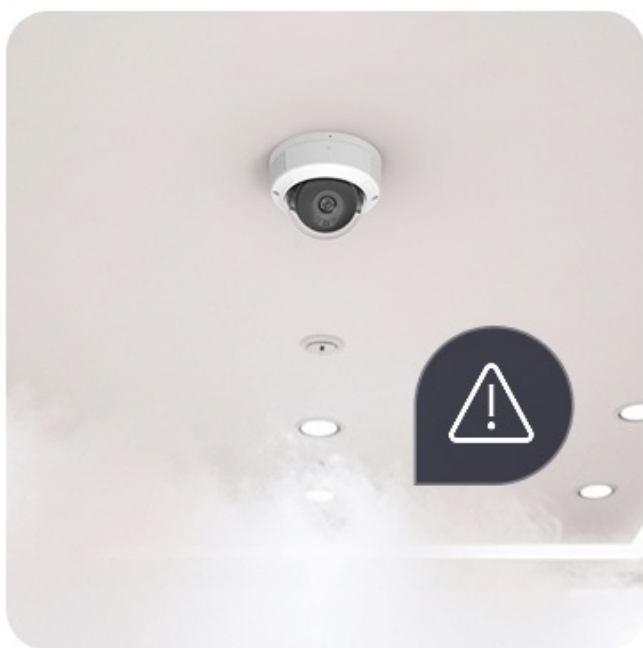

Violence/aggression
