## Lumana

ALERT

Unattended ordering station

AI video security for quick-service restaurants

AI-powered video security that simplifies monitoring and gives you clear visibility across every location.

Meet the all-in-one Lumana platform

Modern video security meets next-generation AI

SOC 2 Type II · NDAA Compliant · HIPAA Compliant

Cameras

Enhance existing cameras or use Lumana cameras covered by a lifetime warranty.

Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

Real-time AI alerts

Notifications for long-lines, trespassing, occupancy, and people/vehicles of interest.

Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.
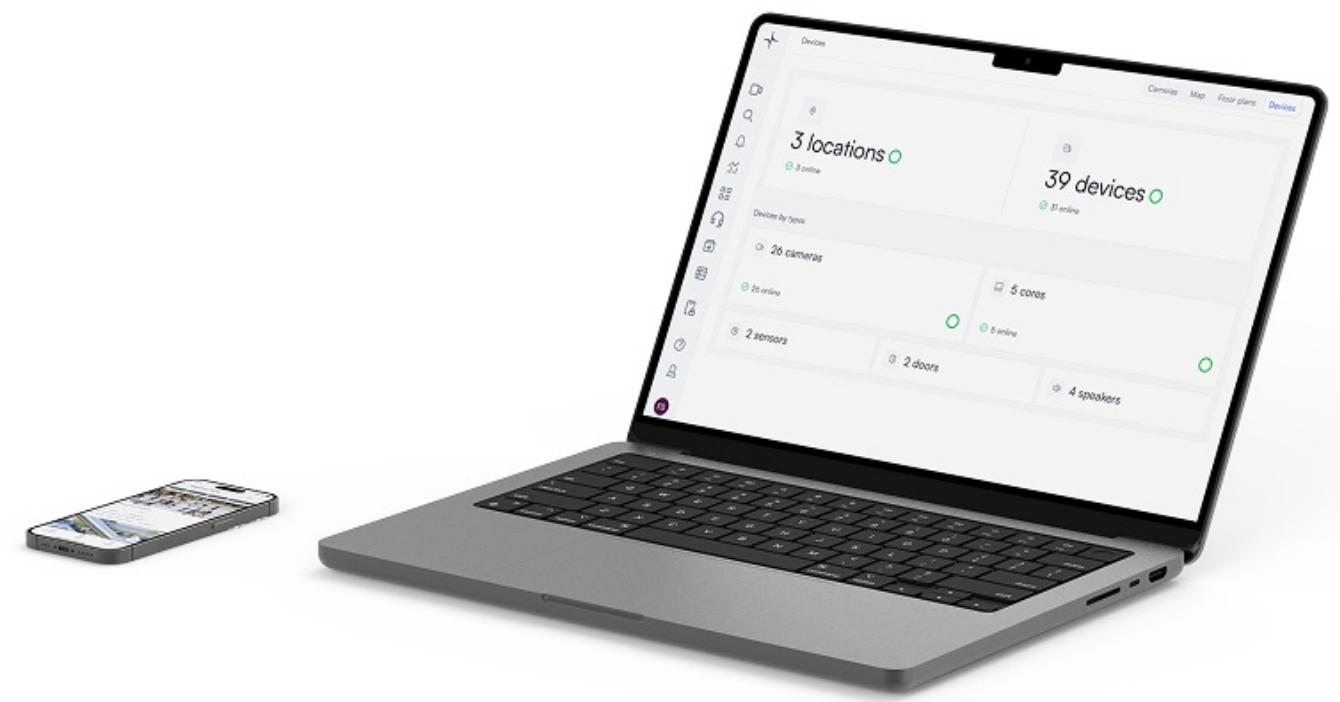

Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

Unified video security management

Centrally manage cameras across every restaurant, including the dining room, kitchen, drive-thru, and parking lot, from one platform.
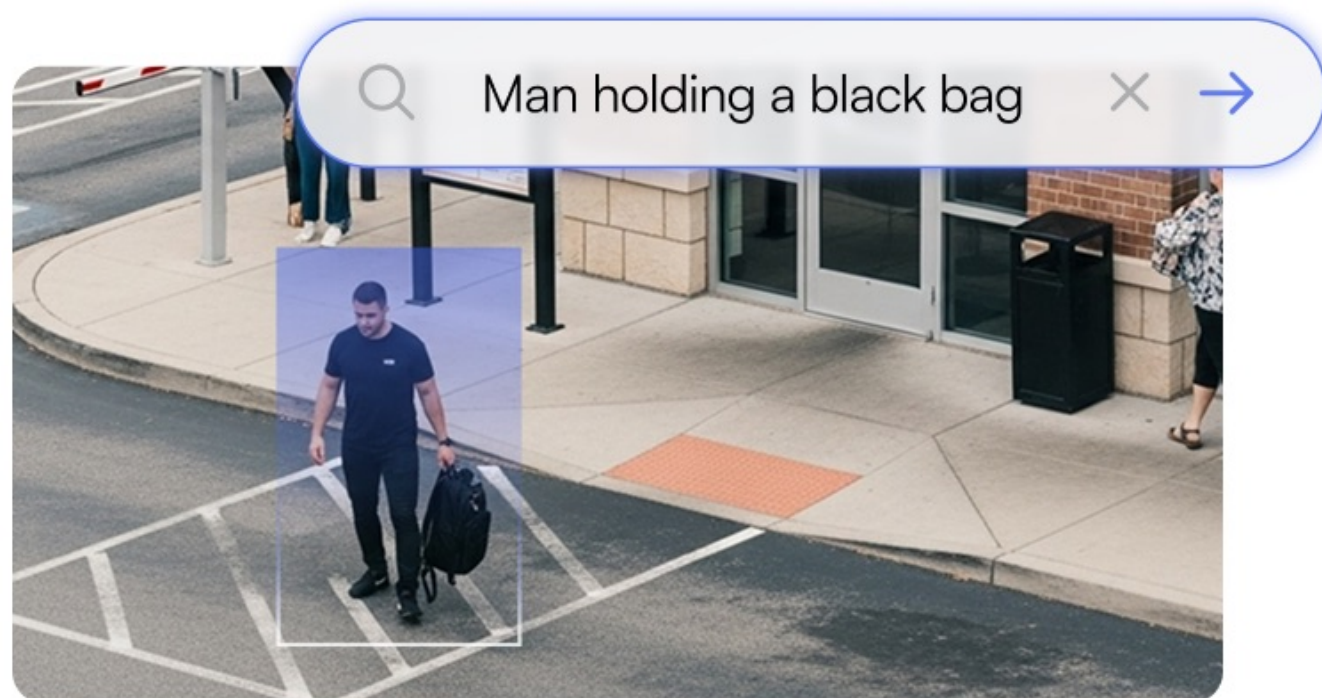

Lumana
Slow line detected

Provide premier guest experiences

Create custom AI alerts to watch for slow lines, unattended counters, or backed-up drive-thrus and send real-time notifications so managers can step in before guests feel the impact.

Drive smarter decisions with data

Build customizable dashboards that turn video into live insights on queue length, order times, lobby occupancy, staffing, and safety trends.
