

Lumana LUM452 / LUM454 / LUM456  
**Core 1U**

Hybrid-cloud video security system with simple deployment and real-time edge processing

Optimizes existing camera infrastructure and brings visual intelligence to any workspace or environment

Best-in-class, self-learning AI algorithms tailored to your unique environment

Secure by default with enterprise-grade encryption and cybersecurity protocols

### Lumana hybrid-cloud architecture

**Camera agnostic**

Open platform provides powerful AI analytics to any security camera for greater situational awareness and operational efficiency.

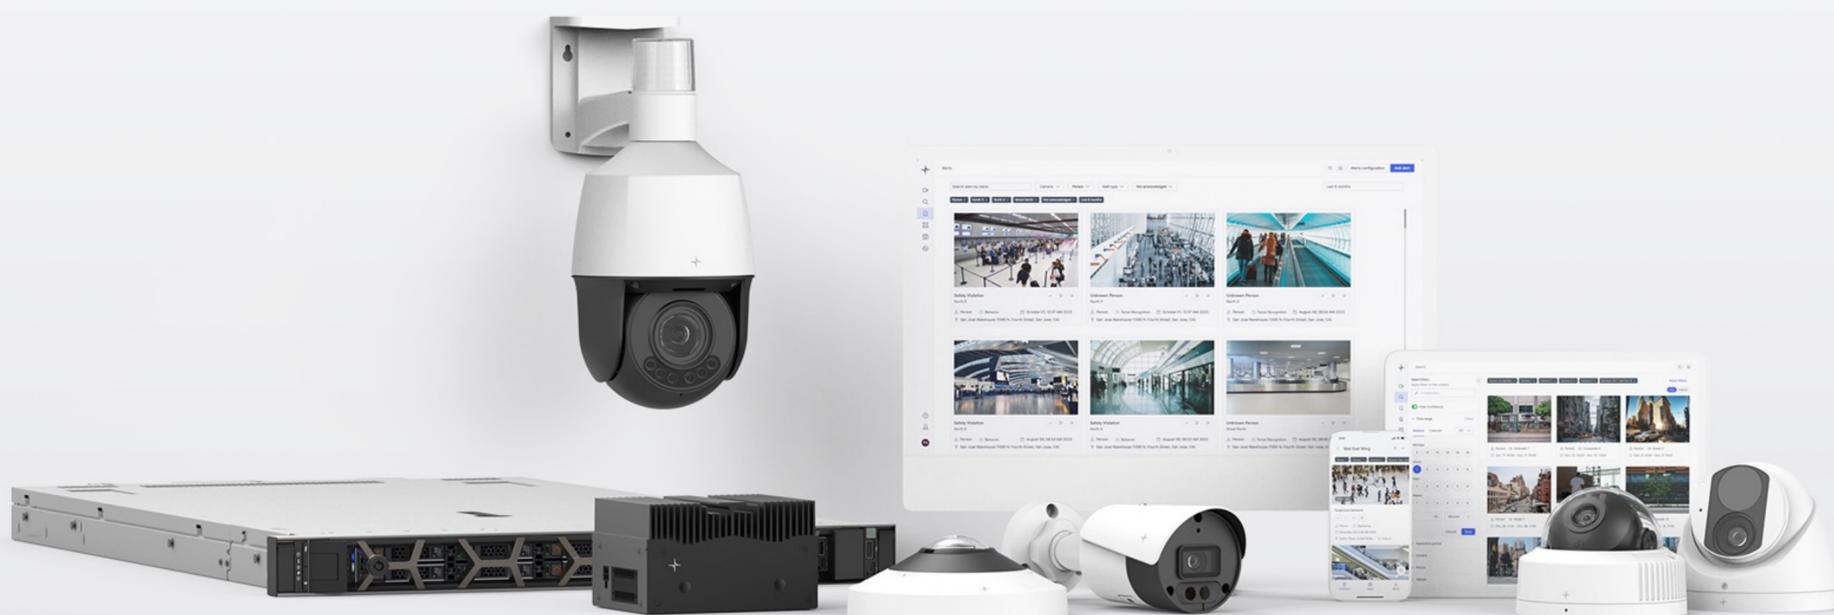

**Actionable intelligence**

Self-learning AI adapts to your environment to predict anomalies and trigger automatic alerts for more proactive response.

**Infinitely scalable**

Manage unlimited cameras and users from one platform and utilize AI to empower your team to do more with fewer resources.

# Lumana is an all-in-one, AI-powered video security solution

## Modern system management

Designed for easy deployment and enhanced reliability, Lumana delivers the best from on-premise and cloud solutions for a modern and refined security experience.

- Centralized management and secure remote access
- Plug-and-play setup — integrate visual AI in minutes
- Automatic updates and system health monitoring

## Next-generation AI features

Patented AI and machine learning algorithms empower your team to operate more efficiently by delivering unparalleled visibility and new business insights at scale.

- Receive real-time alerts for immediate response
- Find people or vehicles of interest in seconds
- New AI features and system upgrades at no cost

## Secure by default architecture

From camera endpoint to application security, Lumana features enterprise cybersecurity protocols to provide powerful AI video security built with data privacy in mind.

- End-to-end encryption for data at rest and in transit
  - No port forwarding or inbound network traffic
- Automatic security updates and routine pen tests

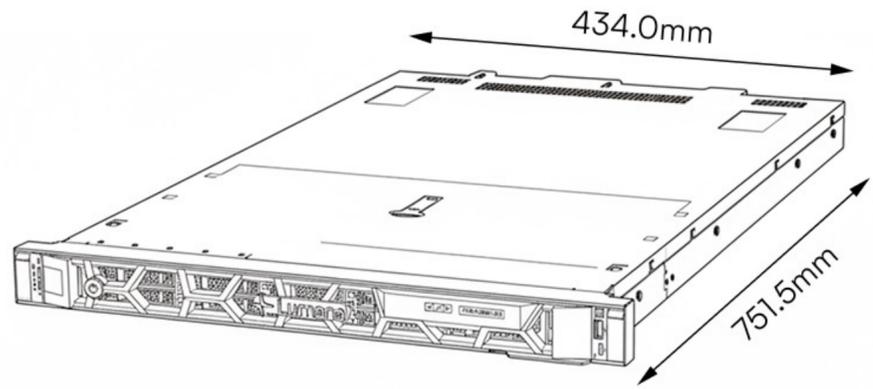

## Built for enterprise deployments

Whether you have 50 or 500 cameras, Lumana simplifies security with modern video management and proactive AI to help you focus on what matters most.

- Easy-to-use software accessible from web or mobile app
- Real-time AI to help users operate 10x more efficiently
- Distributed architecture for better performance and cost

# Core 1U

## Key features

- Rack mount 1U form factor
- Dual OS drives and dual hot-plug power supplies
- Full hardware redundancy: OS drives, power supply, and RAID
- Lumana 24/7 global support
- Bring-your-own IT software stack (install additional server applications)
- Up to 88TB enterprise-grade storage
- Hardware RAID for redundancy
- Onsite support with next-business-day repair
- Compatible with any RTSP IP camera

## General information

<b>Weight</b>	20.2 kg (44.53 lbs)	<b>Dimensions</b>	434.0 mm (17.08 in) × 42.8 mm (1.685 in) × 751.48 mm (29.59 in, ear to rear wall)
<b>Power supply</b>	Dual redundant, 800W MM (100–240Vac), hot-plug	<b>BTU rating</b>	3000 max theoretical
<b>Camera capacity</b>	Up to 64 channels of 5MP cameras with full analytics capabilities	<b>Camera compatibility</b>	Any RTSP IP camera
<b>Recording retention</b>	30 / 60 / 90 days*	<b>Remote viewing</b>	Mobile or PC

## Hardware

<b>Form factor</b>	Rack mounted 1U	<b>CPU</b>	AMD EPYC 9124, 3.0GHz, 16 cores / 32 threads, 64MB cache (200W) DDR5-4800 XL
<b>GPU</b>	NVIDIA L4, PCIe, 72W, 24GB Passive, Single Wide Low Profile	<b>RAM</b>	128GB total (8 × 16GB RDIMM)
<b>Operating system</b>	Linux		

\*Depends on customer selection

## Storage

<b>Chassis</b>	3.5" with up to 4 × SAS3/ SATA drives (front-accessible, hot-plug)	<b>RAID controller</b>	PERC 11
<b>Raw storage options</b>	32TB / 64TB / 88TB enterprise-grade drives	<b>Hardware RAID</b>	Yes, with extensive configuration options
<b>Dual OS drives</b>	Yes, RAID1 SSDs		

## Network

<b>Interface</b>	Dual Port 1GbE(RJ45) + 1 × iDRAC/Mgmt	<b>Remote management</b>	iDRAC9 Enterprise 16G
------------------	---------------------------------------	--------------------------	-----------------------

## Environmental

<b>Operating temperature</b>	10° — 35° C / 50° — 95° F	<b>Storage temperature</b>	-40° — 65° C / -40° — 149° F
<b>Humidity</b>	10 — 85% RH (non-condensing)		

## Server maintenance

Lumana enables customers to install and operate server maintenance IT software, such as endpoint monitoring tools, to simplify server management.

### Use cases:

 Endpoint monitoring

 Server health management

 Simplified server operations

<b>IT software enablement</b>	Yes	<b>Resource allocation</b>	Per VM
<b>CPU</b>	2 cores	<b>Memory</b>	16 GB

## Reliability and ownership

---

<b>Redundancy</b>	Full hardware: dual OS drives, dual hot-plug power supply, RAID storage	<b>Credential and key encryption</b>	TPM 2.0
<b>Onsite hardware repair/replacement</b>	Next business day	<b>Additional server applications</b>	Bring-your-own IT software stack
<b>Customer support</b>	24/7 global support	<b>Warranty</b>	<b>Leased:</b> Lifetime <b>Purchased:</b> 3 years, extendable to 5 years
<b>Regulatory model</b>	E97S	<b>Regulatory type</b>	E97S001

---
