Lumana

AI video security for quick-service restaurants

Turn any IP camera into real-time intelligence with continuous-learning AI that detects risk, accelerates investigations, and keeps service running smoothly.

VIA-A

Continuous-learning AI model for any IP camera, delivering best-in-class detection accuracy and performance.

Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

Real-time AI alerts

Notifications for long-lines, trespassing, occupancy, and people/vehicles of interest.

Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

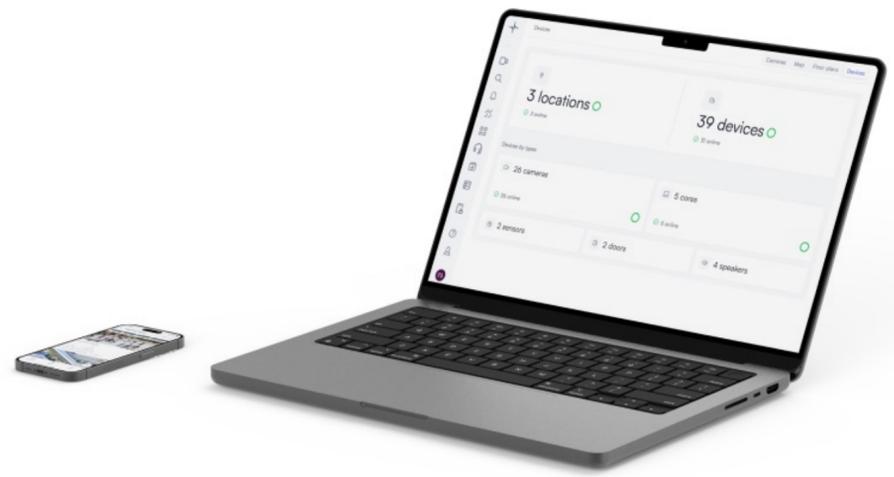

Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

Manage restaurant operations and safety with AI agents

Monitor every location from one platform and deploy AI agents to detect risk, capture operational data, and help teams respond faster with less manual effort.

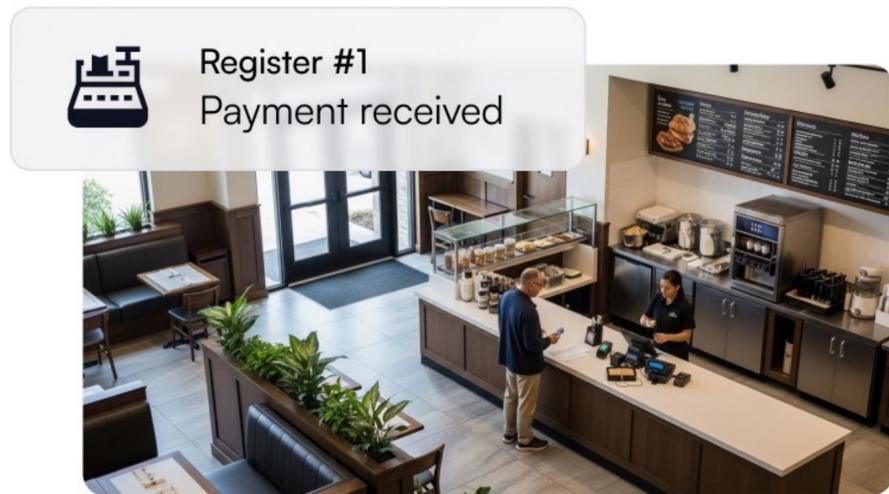

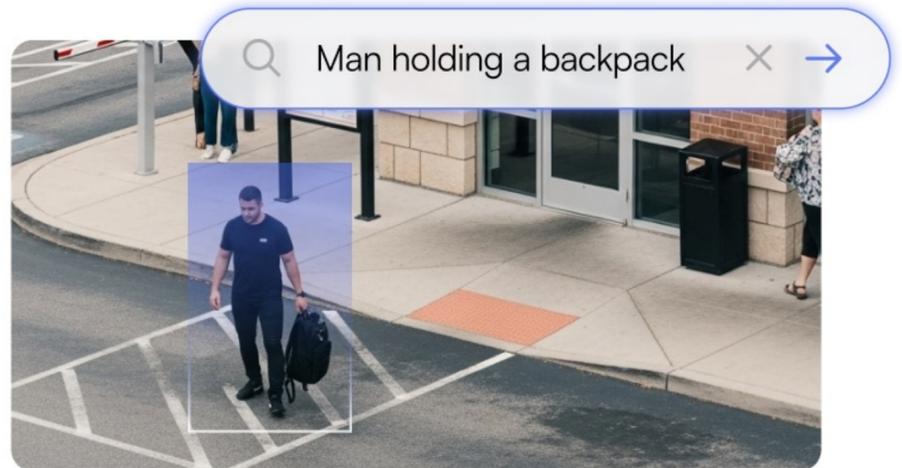

Accurately detect service and safety issues in real time

Self-learning AI agents adapt to each environment to identify service slowdowns, safety risks, and unusual activity as they happen, not after guests are impacted.

Accelerate investigations and incident response

Search by natural-language text or multi-parameter filters to instantly surface the right footage, whether you're reviewing a complaint, POS dispute, or safety incident.

Connect AI agents across your restaurant technology stack

AI agents link video with POS, access control, alarms, and third-party events to enable smarter alerts, faster investigations, and automated actions.

ENTERPRISE-GRADE FEATURES. ALWAYS INCLUDED.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

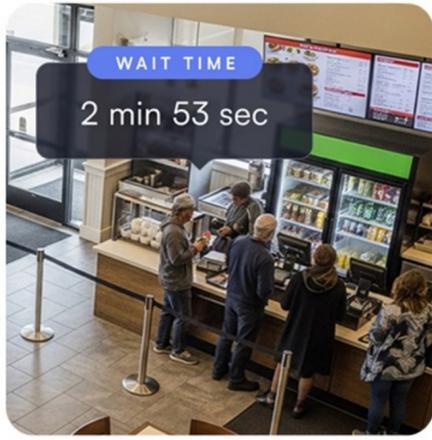

Automatic updates for new AI and upgrades

Dedicated onboarding, training, and support

AI agents for QSR safety, security, and operations

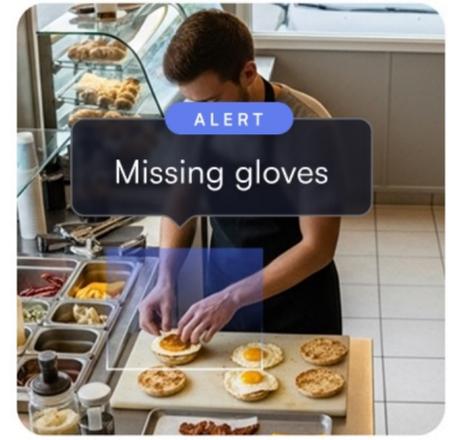

Customer wait time

Line-length detection

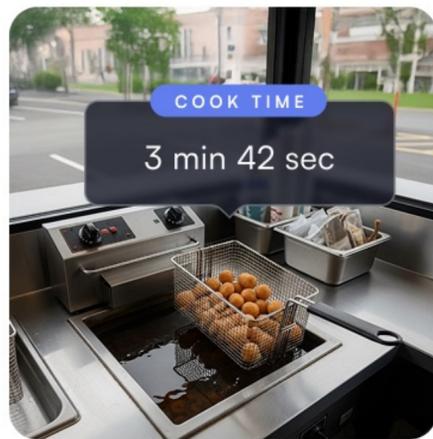

Workstation cleanliness

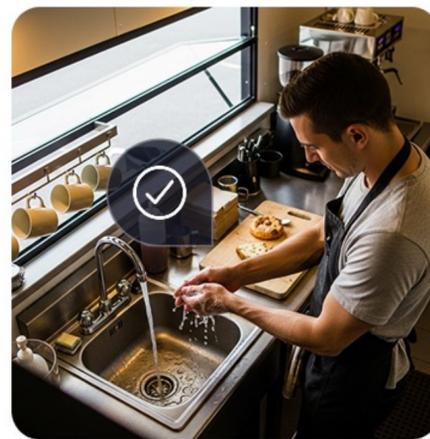

PPE detection
