⁺ Lumana

AI video security for retail stores

Turn any IP camera into real-time intelligence with continuous-learning AI that detects risk, accelerates investigations, and keeps stores running smoothly.

Meet Lumana

The most accurate visual AI platform for real-time alerts and fast investigations — all in a modern, unified VMS.

SOC 2 Type II

NDAA Compliant

HIPAA Compliant

VIA-1
Continuous-learning AI model for any IP camera, delivering best-in-class detection accuracy and performance.

Core
AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

VMS+
Manage multiple locations from a single platform with modern video management software powered by AI.

Monitor from anywhere
Access Lumana to monitor your stores from any browser or mobile device.

Real-time AI alerts
Notifications for long-lines, trespassing, occupancy, and people/vehicles of interest.

Find footage in seconds
Layer search parameters to filter footage and instantly find what you need.
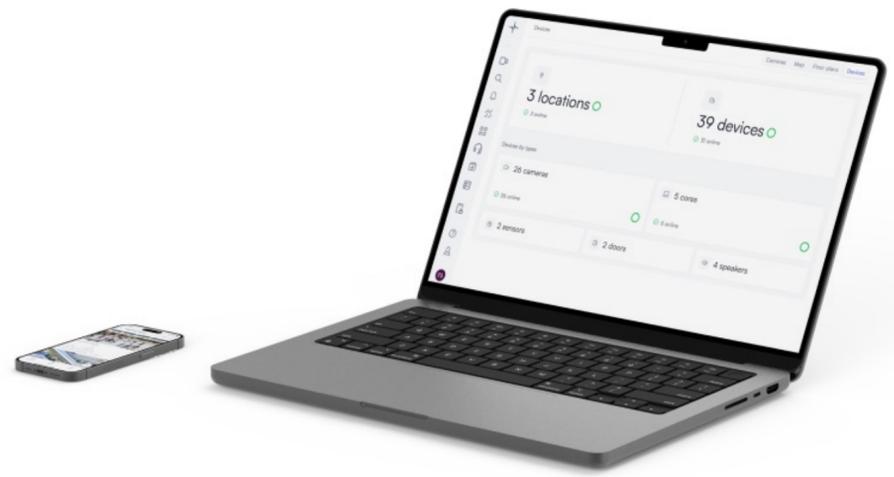

Intelligent dashboards
Turn video into live views of staffing, stocking, traffic, and risk trends.

Manage store security and operations with AI agents

Monitor your stores from one platform and activate AI agents to detect risk, capture key events, and help teams respond faster with less manual effort.
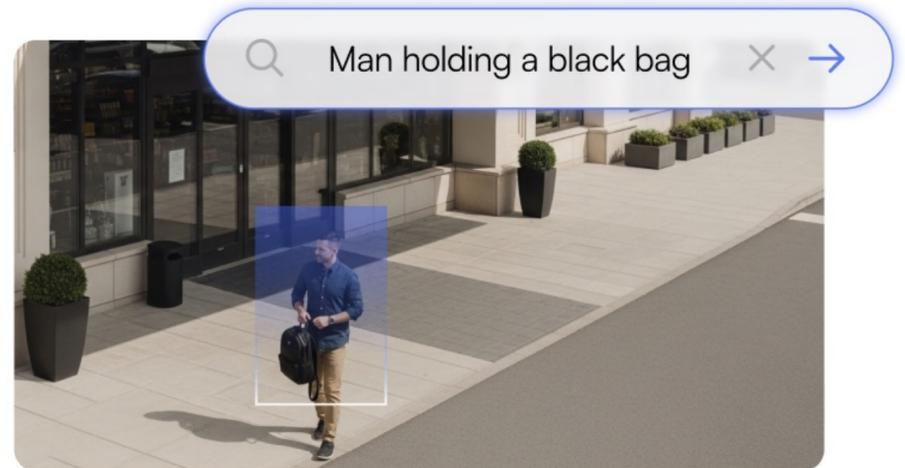

Lumana
Unattended counter

Accurately detect service and safety issues in real time

Self-learning AI agents adapt to each camera to identify theft, safety risks, and service slowdowns as they occur, not after the fact.

Accelerate investigations and incident response

Search by natural-language text or multi-parameter filters, scrubbing millions of hours of footage in seconds to pinpoint the moment you need.

Integrate AI agents across your retail technology stack

AI agents connect video with POS, access control, alarms, and third-party events to enable smarter alerts, faster investigations, and automated actions across all locations.

ENTERPRISE-GRADE FEATURES. ALWAYS INCLUDED.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

Automatic updates for new AI and upgrades

Dedicated onboarding, training, and support

AI agents for retail safety, security, and operations

Customer wait time

Line-length monitoring

Hazard detection

Occupancy analytics

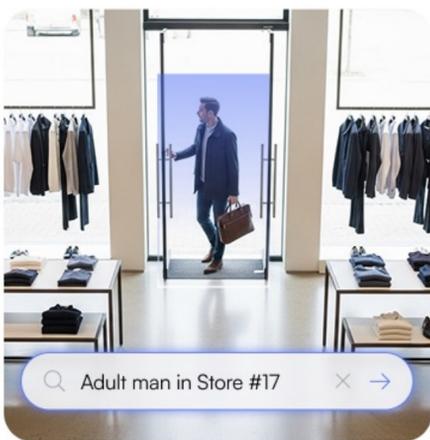

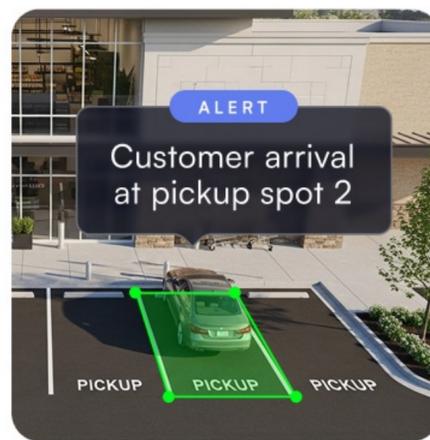

Inventory tracking

Unauthorized access

Warehouse safety
