

# AI video security for manufacturing

Turn any IP camera into real-time intelligence with continuous-learning AI that detects risk, accelerates investigations, and keeps production moving.

**ALERT**  
Fall detected

## Meet Lumana

The most accurate visual AI platform for real-time alerts and fast investigations — all in a modern, unified VMS.

### VIA-1

Continuous-learning AI model for any IP camera, delivering best-in-class detection accuracy and performance.

### Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

### VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

#### Monitor from anywhere

Access Lumana to monitor your sites from any browser or mobile device.

#### Real-time AI alerts

Notifications for missing PPE, forklift speeding, near-miss accidents, and more.

#### Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

#### Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

## Manage site safety and operations with AI agents

Monitor all your facilities from one platform and activate AI agents to detect risk, capture data, and help teams respond faster with less manual effort.

## Accurately detect unusual events in real-time

Self-learning AI agents adapt to your environment to identify safety risks, security issues, and operational anomalies as they occur, not after the fact.

## Accelerate investigations and incident response

Search by natural-language text or multi-parameter filters, scrubbing millions of hours of footage in seconds to pinpoint the moment you need.

## Integrate AI agents across your technology stack

AI agents connect video with external systems by indexing pallet IDs, barcodes, and third-party events to unlock advanced video search, alerts, and actions.

### ENTERPRISE-GRADE FEATURES. ALWAYS INCLUDED.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

Automatic updates for new AI and upgrades

Dedicated onboarding, training, and support
