

# AI video security for assisted living communities

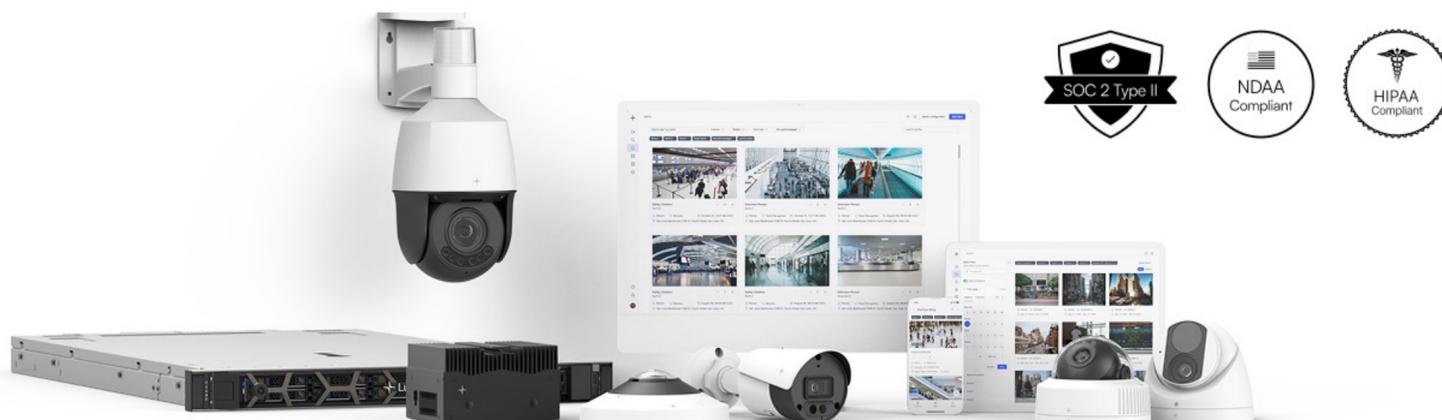

Real-time video intelligence that automates monitoring, enhances visibility, and improves operations.

**ALERT**  
Shuttle #2 arrived

## Meet the all-in-one Lumana platform

Transform any camera into an AI agent

### Cameras

Enhance existing cameras or use Lumana cameras covered by a lifetime warranty.

### Core

AI video processor with up to 90 days of industrial-grade SSD storage and up to 365 days in the cloud.

### VMS+

Manage multiple locations from a single platform with modern video management software powered by AI.

#### Monitor from anywhere

Access Lumana to monitor your community from any browser or mobile device.

#### Real-time AI alerts

Get instant alerts for falls, wandering, and unauthorized access to care areas.

#### Find footage in seconds

Layer search parameters to filter footage and instantly find what you need.

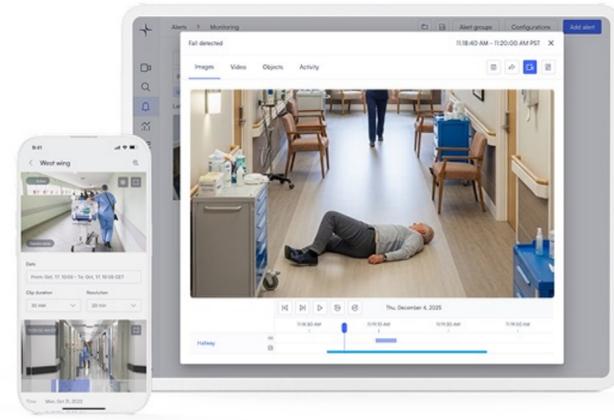

#### Intelligent dashboards

Capture live data from video and quickly visualize security and operational trends.

## Unlock real-time awareness

AI agents analyze every camera in real time to detect resident falls, wandering, aggression, elopement risks, and environmental hazards so staff can respond quickly.

 Unauthorized storage access

## Protect residents, staff, and visitors

Proactively prevent unwanted activity and address potential threats with real-time alerts, clear context, and automated response workflows.

## Ensure privacy and compliance

Protect sensitive data and maintain HIPAA and organizational compliance with privacy-focused architecture, access controls, and audit-ready safeguards.

 Overdue resident check-in

## Improve healthcare operations

Monitor your community with AI to keep medicine and sensitive areas secure, ensure supplies stay stocked, and help residents receive timely support.

### ENTERPRISE-GRADE FEATURES. ALWAYS INCLUDED.

Lifetime warranty for predictable system costs

Industry-leading AI features and capabilities

Hybrid-cloud reliability and performance

No port forwarding or VPN for secure access

Unlimited cameras, users, and cloud archiving

Bandwidth-friendly with real-time AI processing

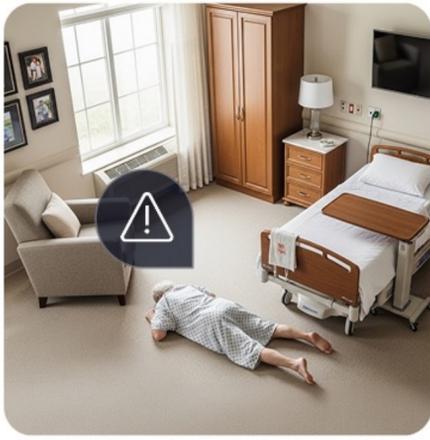

Automatic updates for new AI and upgrades

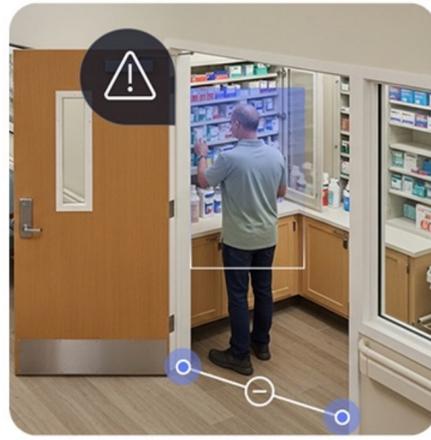

Dedicated onboarding, training, and support
