

Safer Student Initiative

Get a free AI video security system for one year

The mission

Every student deserves to feel safe. The Safer Student Initiative is designed to help K-12 schools and universities turn their existing camera infrastructure into a proactive safety net. By moving from reactive monitoring to real-time AI detection, Lumana empowers security teams to identify risks and accelerate investigations — keeping both students and staff safe.

What is the Safer Student Initiative?

Free AI video security system for up to 10 cameras for one year.

No user limits and unlimited access to the Lumana Platform.

Purchase within the year and receive a free year on 5-year term.

Key benefits for schools

Real-time activity and behavior detection

Automatically identify fights, gun presence, trespassing, and vaping as they happen, not after the fact.

Security and privacy by design

End-to-end encryption, no port forwarding, and compliance with SOC 2 Type II, NDAA, and more.

Single pane of glass management

Manage unlimited cameras, locations, and users from a single unified platform.

Accelerate investigations with AI

Scrub millions of hours of footage in seconds by typing a sentence, selecting attributes, and more.

Trusted by top schools across the nation

Discover a smarter way to protect your students
