

# How to Share Your Digital Business Card with Someone Who Doesn't Have the CardByte App (Web App)

You can easily share your digital business card with anyone—even if they don't have the CardByte app installed. Here's how:

- **Log in** to the CardByte web app.  
<https://enterprise.cardbyte.ai/login>
- Navigate to your card:
  - Click on the **“My Card”** tab, or
  - Use the **“Share Card”** option directly from the dashboard.

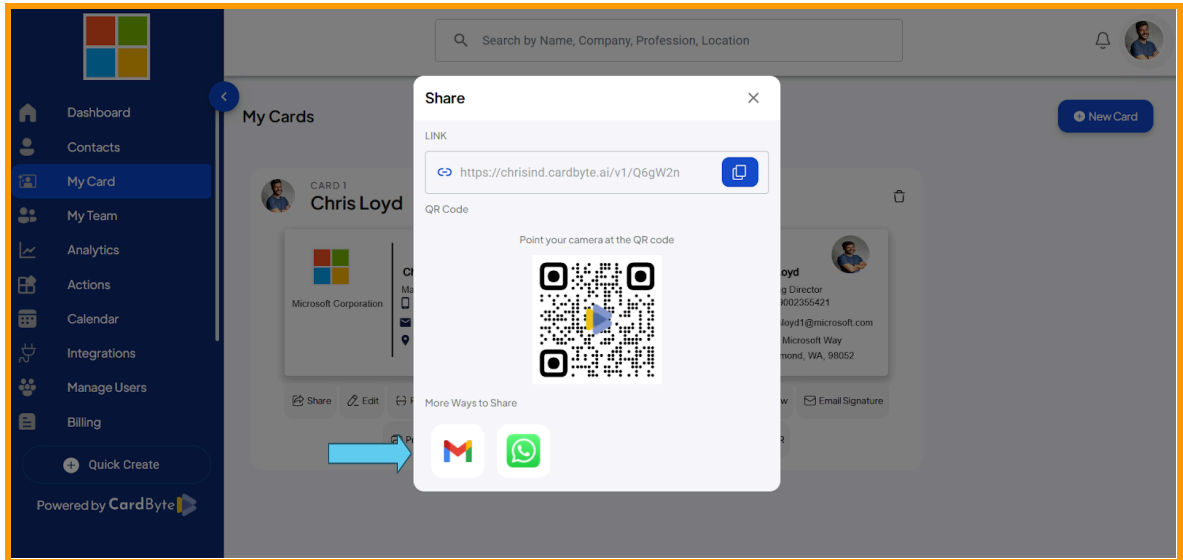

- Click on the “**Share**” tab. A new screen will appear, offering multiple sharing methods.

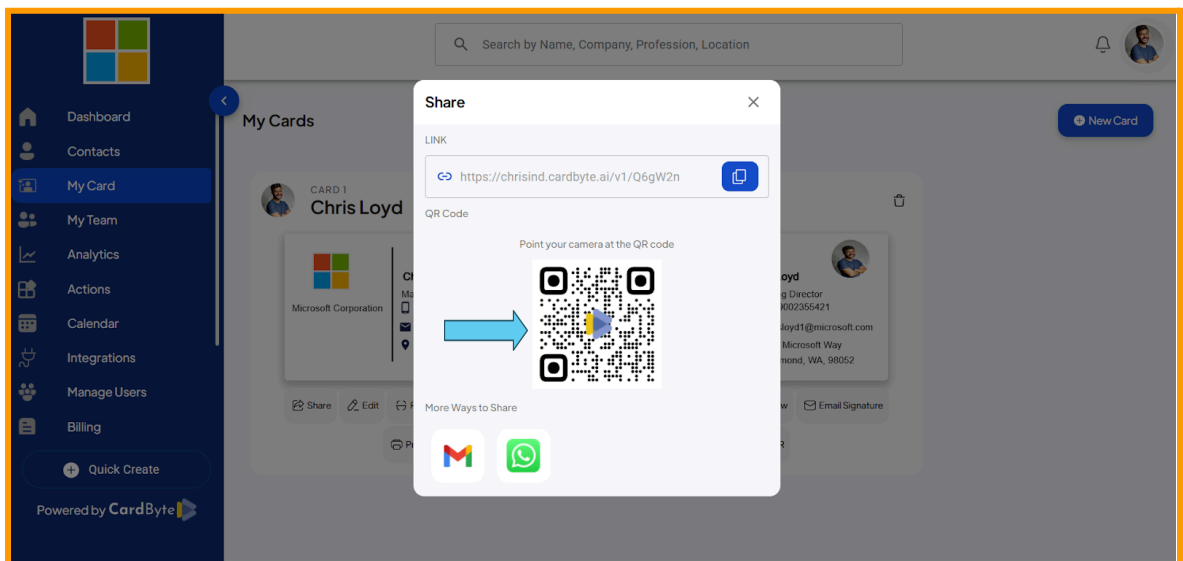

- Choose from the following options to share your card:
  - **Email**
  - **WhatsApp**
  - **QR Code**
  - **Deep Link**
  - Other supported platforms

*Note: If you're already logged into these platforms on your computer, their respective icons will appear for quick access.*

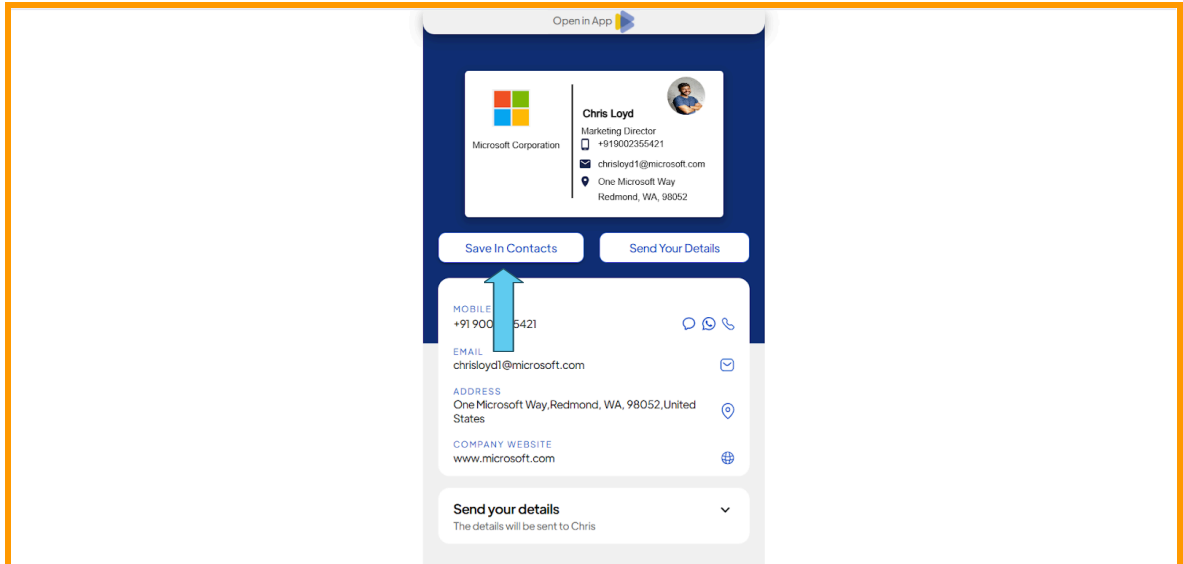

Alternatively, you can use the **QR code method**:

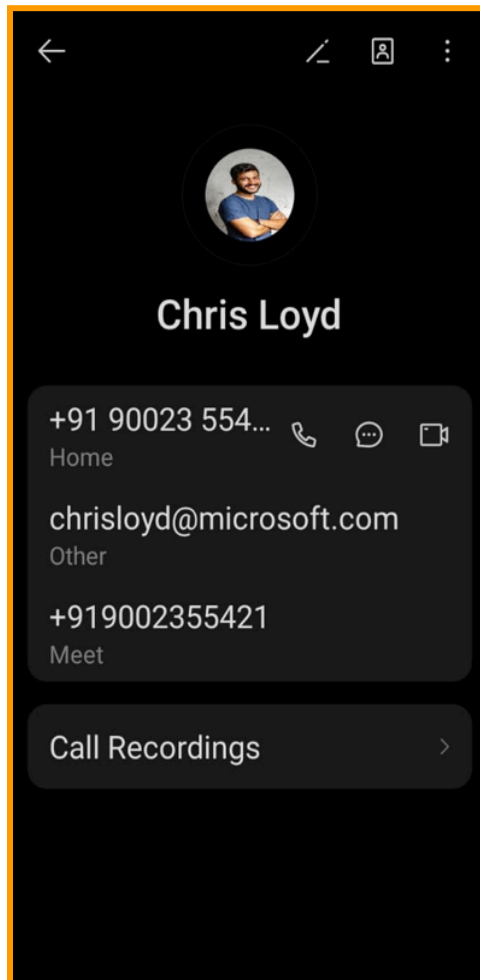

- Ask the recipient to open their phone's **camera or QR scanner**.
- Have them scan the **QR code** displayed on your screen.
- A **link will appear**—once tapped, it opens your digital business card in their browser.

- The recipient can then tap “**Save Contact**” to add your details directly to their phonebook.

No app download is necessary for the recipient—making it a quick and seamless way to connect!

## **How to Share Your Digital Business Card with Someone Who Doesn't Have the CardByte App (Mobile App)**

You can easily share your digital business card with anyone—even if they don't have the CardByte app installed. Here's how:

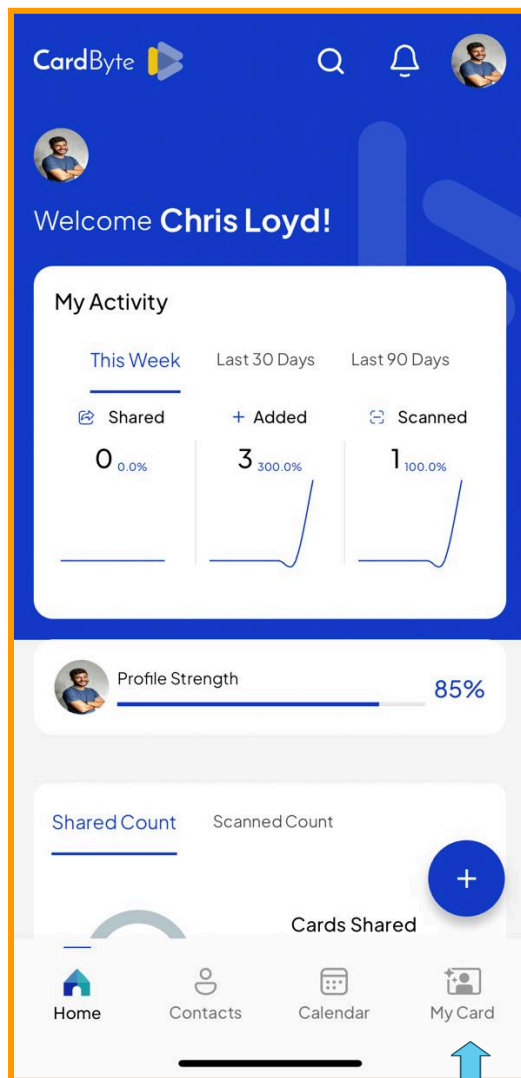

**For Android App, click on the link below:**

<https://play.google.com/store/apps/details?id=ai.cardbyte.enterprise>

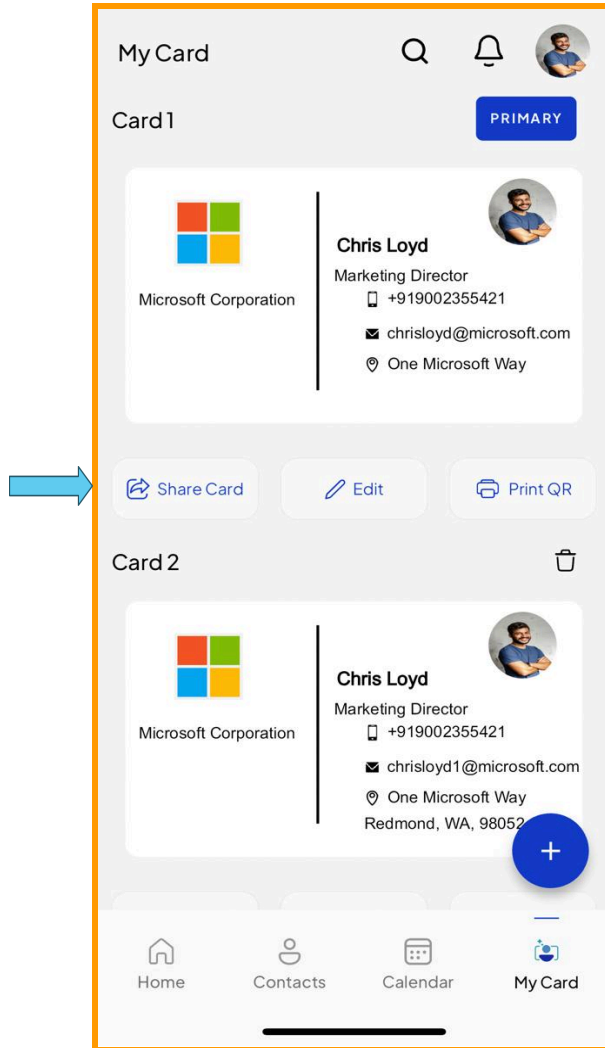

**For the iOS app, click on the link below:**

<https://apps.apple.com/in/app/cardbyte-enterprise/id1670373750>

- **Log in** to the CardByte mobile app.
- **Go to "My Card"** by clicking on the nav bar.

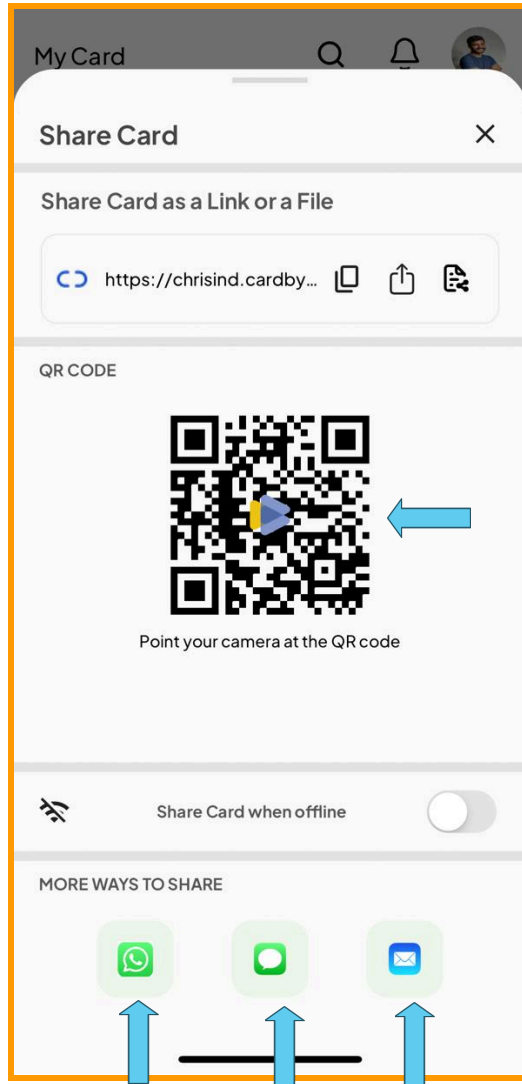

- Tap on the **“Share”** option on the card you want to share

- A new screen will appear, offering multiple sharing methods.
- Choose from the following options to share your card:
  - Email
  - WhatsApp
  - PDF
  - Deep Link
  - QR Code
  - Text Message
  - Other supported platforms

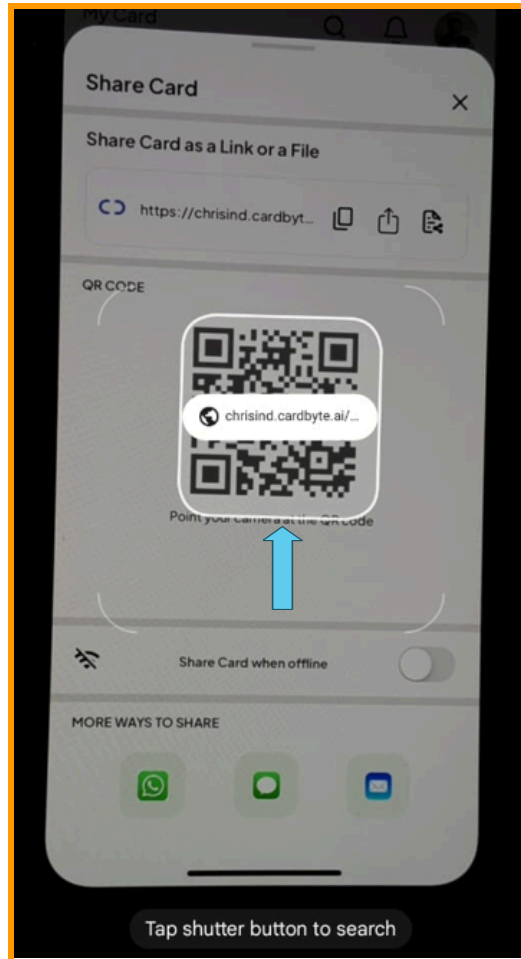

*Note: If you're already logged into these platforms on your computer, their respective icons will appear for quick access.*

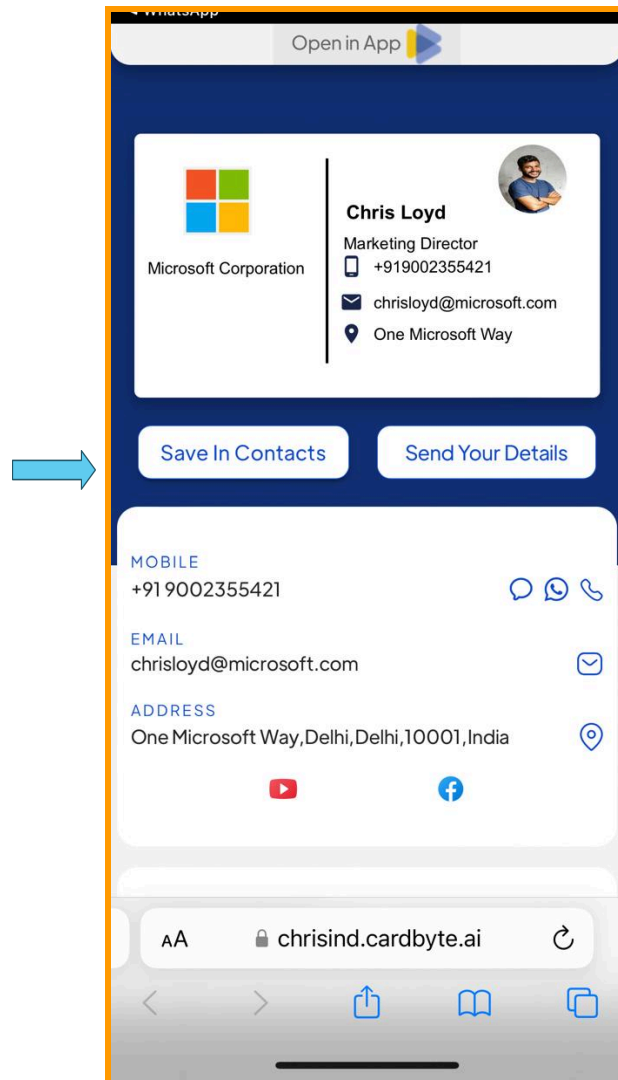

Alternatively, you can use the **QR code method**:

- Ask your contact to **open their camera app, Google Lens, or a QR code reader**.
- Once they **scan the QR code**, a **pop-up link** will appear—your contact just needs to tap it.

- They will be **redirected to their browser**, where your digital card will be displayed.
- The receiver can click "**Save In Contact**" to store your details directly in their phonebook.

No app download is necessary for the recipient—making it a quick and seamless way to connect!
