

How to Edit Your Digital Business Card in the CardByte Mobile App

- **Download** to the CardByte mobile app.

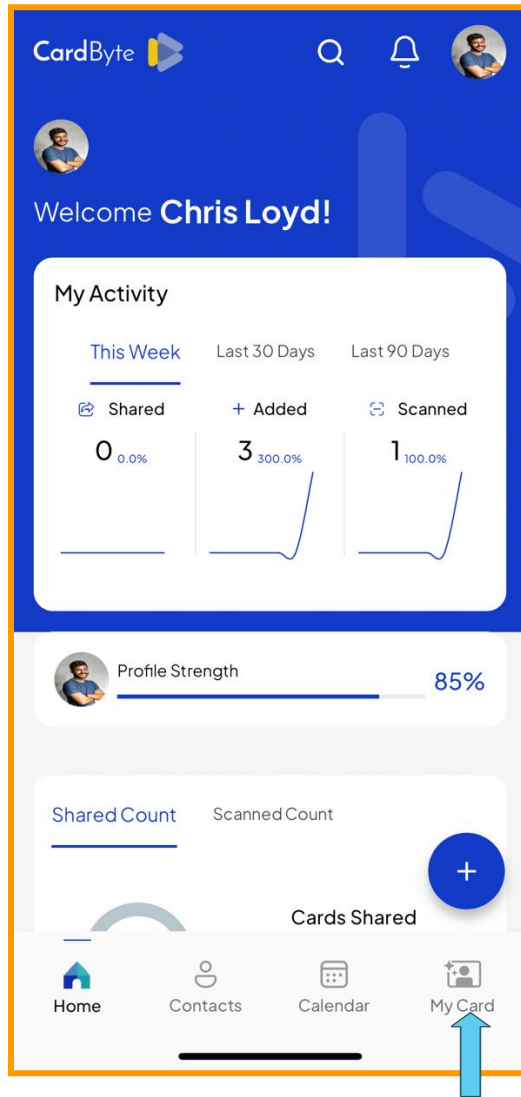

For Android users, click on the link below:

<https://play.google.com/store/apps/details?id=ai.cardbyte.enterprise>

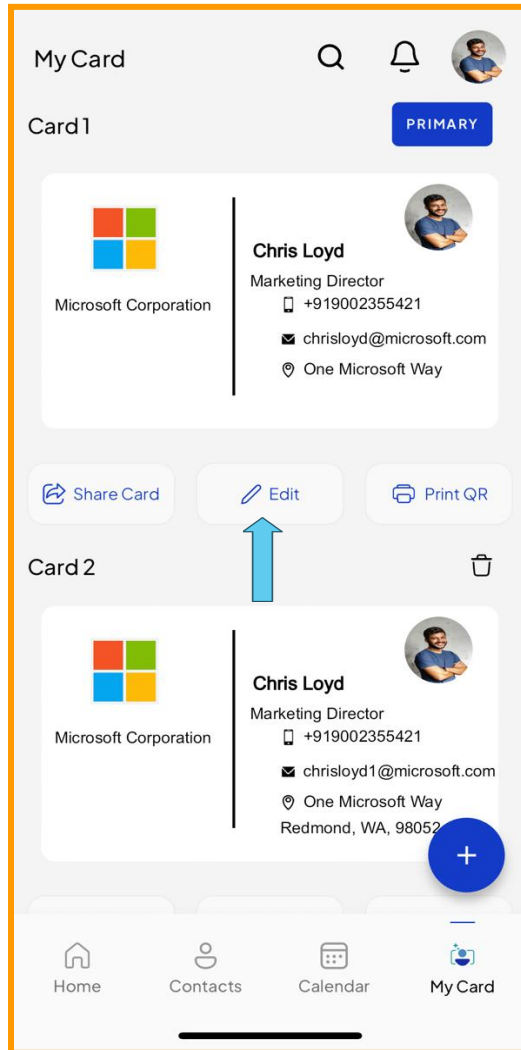

For Apple users, click on the link below:

<https://apps.apple.com/in/app/cardbyte-enterprise/id1670373750>

- Log in to the CardByte Mobile app
- Navigate to the My Card Tab on the Bottom Right

- Click on the **"Edit"** button to modify your details.

- You can update the following fields:
 - Profile Photo
 - Name
 - Contact Number
 - Designation
 - Address
 - Website URL
 - Social Media Handles
 - Business Summary

- If a field is locked and cannot be updated, then contact your admin to update the locked field.

The screenshot shows a mobile application interface for editing a business card. The title bar at the top is labeled 'Edit Own Card' with a back arrow on the left. The form contains several input fields: a location dropdown set to 'Delhi', two separate fields for 'Delhi' and '10001', a field for 'Enter Company Website', and a field for 'Enter fax' with an 'Add' button. Below these are two social media link fields, one for YouTube and one for Facebook, each with a trash icon. An 'Add Links' button is positioned below the social media fields. At the bottom of the form is a 'Business Information' section with a dropdown arrow. A large blue button labeled 'Save Changes' is at the very bottom, with a blue arrow pointing up to it from below the screen.
