Reinsurance may be a relatively simple concept to grasp. However, at the operational level, some of its practices, especially on technical accounts, can be quite complex and difficult to comprehend. This is at least to the uninitiated, or those still new to reinsurance. Through lectures, exercises and discussions during this 2-day programme, participants will acquire detailed technical and practical knowledge of how the technical accounts for Proportional and Non-Proportional Reinsurance Treaties and Facultative are prepared and processed.

Target Audience

- Reinsurance Practitioners with 3 to 5 years of work experience.
- Other Practitioners who wish to gain a better understanding of the technical fundamentals involved in the preparation of reinsurance accounts.

## Key Learning Outcomes

At the end of the programme, participants should be able to:

- Distinguish between the different concepts and terminologies applied in Facultative, Proportional and Non- Proportional Reinsurance accounts.
- Apply relevant knowledge and skills to confidently and accurately check, process and prepare the various types of accounts documents.
