- Insurance staff employed in support functions wishing to develop their knowledge of the business; and
- Those wanting to pursue a pathway towards achieving Associateship of the Chartered Insurance Institute (ACII) designation.

Modules Overview

ADGI05 Claims Management

It provides a deep dive into claims strategy, environment, and operations management within organizations. It emphasizes internal communications, claims service excellence, and effective handling principles, while exploring technical aspects, policy applications, and key financial considerations. The module includes a focused section on the Monetary Authority of Singapore's (MAS) Guidelines on Fair Dealing. This addition aims to ensure alignment with regulatory standards and foster high-quality customer service in claims, complaints, and retention.

Updates on the General Insurance Association (GIA) Fraud Management System and its collaboration with Swift to counter travel insurance fraud are also integrated, highlighting the importance of fraud prevention. Overall, it prepares professionals to efficiently manage claims operations, adhere to regulatory compliance, and secure customer trust in the financial sector.

ADGI06 Risk Management in Insurance*

It aims to provide the knowledge on the application of key risk management principles and practices in insurance organisations i.e. insurance companies and insurance brokers. It highlights the risk identification and the prioritisation processes, as well as the methods of risk assessment and analysis. Concepts such as risk controlling techniques, risk transfer as well as methods of risk monitoring and review, will also provide the candidate with a better understanding of risk management in insurance organisations.

**Prior to 1 July 2020, ADGI06 was known as Risk Management.*

ADGI07 Business and Economics

It aims to deepen candidates' understanding of the interconnectivity between insurance and economics. The study text introduces fundamental economic principles and their role in the global and Singaporean economies. It reviews key economic theories and concepts such as demand and supply, competition, unemployment, inflation, monetary and fiscal policies, balance of payments, and exchange rates. The text applies these theories within the insurance context, highlighting business issues like ethics, corporate governance, and risk management, alongside financial aspects like financing and management accounting. It introduces topics such as Behavioural Economics, InsurTech for fraud detection, and the economic impacts of the COVID-19 pandemic. It also includes updates like the MAS Fair Dealing Guidelines and the MAS Code of Corporate Governance, focusing on ethical standards and governance, and covers advanced topics like Singapore's labour dynamics and financial models.
