Introductory Level

Specialised Marine Insurances: Vessel Chartering, Construction, and Liability Solutions

Register Now

6 November 2026

3 CPD hours

2.00 p.m. to 5.00 p.m.

Virtual Instructor Led Training

This course offers a focused exploration of key insurance products essential for maritime operations beyond traditional hull and machinery policies. It delves into specialised covers, including Charterers' Liability Insurance, Builders' Risks Insurance, and Ports and Terminals Insurance, as well as liability coverages for ship repairers and marina operators. Participants will also gain insights into the legal frameworks, underwriting considerations, and risk implications of these policies, enabling them to effectively assess and manage interconnected risks in the maritime sector.

Target Audience

- Marine underwriters and claims specialists
- Risk managers from maritime companies
- Brokers and intermediaries handling marine insurance
- Marine loss adjusters
- Legal professionals specialising in maritime law

Key Learning Outcomes

At the end of the programme, participants should be able to:

- Grasp the latest regulatory and environmental challenges affecting vessel chartering, shipbuilding, and port operations.
- Understand the role and impact of Charterers' Legal Liability Insurance in managing cargo, pollution, and third-party claims.
- Understand underwriting and claims considerations for specialised coverages like Builders' Risks Insurance, Ship Repairers' Liability, and Ports and Terminals Insurance.
- Explain how interrelated risks across vessel operations, repair, construction, and port activities influence marine liability and insurance practices.

Programme Outline

- Vessel chartering
- Charterers' legal liability insurance
- Builders' risks insurance
- Ship repairer, marina and other marine liabilities
- Mortgagees' interest insurance
- Ports and terminals insurance

Programme Fee

S\$218.00 (inclusive of 9% GST)

Participants who register by 6 September 2026 will be entitled to a 10% Early Bird Discount.

A 10% Group Discount is also applicable for organisations registering a minimum of three participants.

Please note that the Early Bird and Group Discounts are not cumulative.

Programme Leader

Mr. Andrew Mackenzie

Andrew Mackenzie, a Fellow of the Chartered Insurance Institute, has carved a notable career in the insurance industry underpinned by rigorous education and diverse professional experiences. His academic journey includes an MSc in Insurance and Risk Management from Bayes Business School with Distinction and an MA in Modern History from the University of Durham. Andrew is currently pursuing an Executive PhD in Actuarial Science at Bayes Business School on a part-time basis.

Professionally, Andrew has excelled in roles across prestigious institutions like Lloyd's of London and Atrium Underwriting Ltd., specializing in marine insurance claims. His expertise extends to adjusting claims for Marine Hull and Machinery, Cargo, and Energy sectors. Additionally, Andrew contributes to the insurance community as an examiner, coursework marker, and textbook reviser with the Chartered Insurance Institute.

His scholarly work includes publications on maritime decarbonization and the implications of maritime laws, affirming his thought leadership. Recognized for his professional excellence, Andrew has received awards such as the Rutter Medal from the CII, the Bayes Alumni Rising Star Award, and the Insurance Insider Young Claims Professional of the Year 2019.
