Intermediate Level

Engineering Insurance Mastery: A Premier Study Tour in Singapore

Register Now

16, 17, 18 & 19 November 2026

28 CPD hours

9.00 a.m. – 5.00 p.m.

Singapore College of Insurance (SCI)

This specially designed workshop will cover various engineering and construction policies. Our facilitator, an experienced engineer and consultant with over 30 years in the risk and insurance industry, will share extensive knowledge during the 4-day interactive course.

Participants will gain insights into industry practices and market considerations for these insurance products through relevant case studies. The course will address the arrangement and application of insurance covers, focusing on Construction All Risk (CAR), Erection All Risk (EAR), Professional Indemnity (PI), Bond Covers, and Decennial Insurance (DI).

Exciting segments will include Advance Payment Bond, Retention Bond, Maintenance Bond, and Inherent Defect Insurance (IDI) or Defects Liability Insurance (DLI) providing ten years of coverage. Guest speakers from the Singapore market will provide unique insights and industry updates.

The final day features site visits to the MRT project site and other key insurance stakeholders, enhancing the interactive learning experience while learning of best practices from Singapore being an international insurance hub.

Target Audience

Executives, Senior Executives, Assistant Managers, and Managers from Insurance Companies, Cedant Clients, Reinsurance Brokers, and Reinsurance Companies.

Key Learning Outcomes

At the end of the programme, participants should be able to:

- Understand the coverage provided under various engineering policies.
- Consider relevant clauses and endorsements that may be applied to these covers.
- Formulate underwriting considerations for different types of coverage.
- Appreciate how claims are triggered and processed.
- Highlight risk improvement methods to mitigate losses in various scenarios.
- Understand how Singapore developed over the last five decades to become an international insurance hub.

Programme Outline

- The coverage provided under Construction All Risk (CAR) / Erection All Risk (EAR) Insurance, Professional Indemnity (PI), Bond Covers and Decennial Insurance (DI).
- The relevant clauses and endorsements that may be applied to these covers.
- Underwriting considerations for different types of coverage.
- Claims case studies, the basis of claims triggers and the processing of claims.
- Risk improvement methods to mitigate losses in various scenarios.
- Best practices from Singapore as an international insurance hub.
- Site visit to MRT Project Site and/or other insurance stakeholders in Singapore.

Programme Fee

S\$1090.00 (inclusive of 9% GST)
