

Mark confidential and sensitive information. Trace leaks back to the source

Every major U.S. government department experienced a significant breach in 2025, yet most investigations were inconclusive because sophisticated leakers know how to avoid digital trails.

EchoMark embeds invisible, individualized watermarks into sensitive emails, briefing documents, and screens – including in air-gapped and special clouds – so when information is leaked you can identify the source.

LEAKED CONTENT

Deputy Secretaries,

Following distribution of Assessment Brief **NPCC-IDA-2026-0341** on March 17th, several deputies have not yet confirmed receipt in the document tracking system. **As of 0800 today, 4 of 12 copies remain unacknowledged.**

This brief contains time-sensitive threat assessments requiring Deputy-level review before the **March 26 NSC preparatory session**. Please take the following

SENSITIVE // FOR OFFICIAL USE ONLY

NATIONAL POLICY COORDINATION COUNCIL
Office of Strategic Threat Assessment – Interagency Division
THREAT ASSESSMENT BRIEF

Printed: 2026-03-17 10:00 AM

DOC NO: NPCC-IDA-2026-0341 | DISSEMINATION: LIMITED | COPY: 12

HANDLING RESTRICTION: This document is controlled under Policy Directive 44. Recipients may not reproduce, transmit, or store outside approved systems. Unauthorized disclosure may constitute a federal offense under 18 U.S.C. § 1030.

DATE: March 17, 2026
TO: Deputy Secretary // DepSec Staff // EYES ONLY
FROM: Dir, Strategic Threat Assessment, NPCC
RE: **Critical Infrastructure Vulnerability Assessment – Sector 7 (Energy)**
REFS: NPCC-2026-0287; ExecDir Memo 24-119; NSC-PD-44

1. EXECUTIVE SUMMARY

This assessment evaluates threat vectors identified through interagency collection efforts during the period [REDACTED]. Analysis indicates elevated risk to [REDACTED] infrastructure nodes with specific concern regarding [REDACTED] control systems. This brief has been prepared under authority of NSC-PD-44 and distributed to cleared Deputy-

LEAK IDENTIFICATION

Sample: Leaked PDF

Exact Match

john.smith@echomark.com
Based on Digital Stamp Detector, Invisible Watermark Detector

Digital Stamp Detector

Chance of error: **0%**
Based on identification of the unguessable key embedded within the content of this marked copy.

Result
john.smith@echomark.com

Invisible Watermark Detector

Chance of error: **< 0.0001%**
Based on the number of matching marks and the detector precision.

Result
john.smith@echomark.com

HOW IT WORKS

01

Watermark

EchoMark silently embeds invisible watermarks into every email, document, image, and screen

02

Leak occurs

A screenshot, photo, printout, or forwarded file appears outside your organization

03

Upload artifact

Submit the leaked artifact into EchoMark's investigation tool

04

Definitive answer

Identify whose copy was leaked, with a confidence score and chain of custody
