

...New from TRG Components

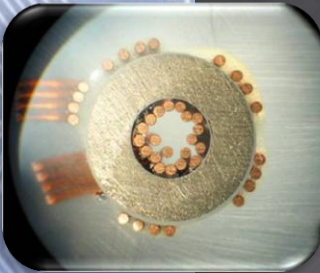

# COAST/ACM

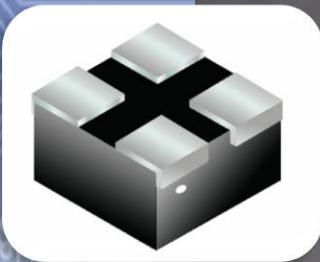

## High reliability magnetic components

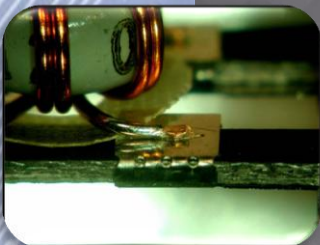

**FOUNDED IN 1952**, Coast/ACM has been a leading manufacturer of inductors and transformers used in the commercial, military (MIL-PRF-27), and space applications (MIL-STD-981).

**DESIGN & PRODUCTION** of custom magnetic components is our expertise, as well as supplying various catalog items ranging from chip inductors (MIL-PRF-83446) to power transformers.

**THE QUALITY** of our production and service has been recognized internationally in the military and aerospace industries. Coast/ACM is currently an ISO9001:2008 and AS9100C registered company.

**THE COMMITMENT** to quality and delivery has made Coast/ACM the reliable source for magnetic components for decades. We're proud to say that virtually all major US space communication and defense systems include components manufactured by Coast/ACM.
