

Cassada PADtrax Zeus LE vs. Generic Money Counters

The PADtrax Zeus LE is purpose-built for law enforcement agencies that demand more than just a bill counter. Engineered to support chain-of-custody integrity, RISS MCN integration, and secure, automated documentation, it delivers a complete evidence-grade solution for currency processing.

Unlike basic currency discriminators that only total and sort bills, PADtrax Zeus LE captures, encrypts, and reports every transaction detail—bridging the gap between the evidence room and the courtroom.

Feature Comparison

Feature	PADtrax Zeus LE	Generic Money Counters
Serial Number Capture	Full OCR serial number and bill image scanning with denomination tracking and a detailed audit trail	No serial-number data captured
Integration / Automation	Encrypted integration with the RISS Money Counter Network (MCN) via PADtrax LE software	Manual or no data export
Security & Audit Features	Encrypted uploads, user authentication, tamper-proof logs, and complete chain-of-custody reports	No encryption or audit controls
Law-Enforcement Software	PADtrax LE — developed specifically for police, sheriff, and federal evidence units	Retail or consumer-grade software interface
Ease of Deployment & Support	Plug-and-play setup, remote configuration, and dedicated U.S.-based support from C&A Associates	Limited support; not designed for law enforcement
Counting Speed	Up to 1,200 notes per minute	Typically, 800–1,000 notes per minute

Feature	PADtrax Zeus LE	Generic Money Counters
Reject Pocket	100-note capacity for unrecognized or suspect notes	Usually none
Encryption	AES-256 encryption for local and network data transfer	No encryption
RISS MCN Upload	Automatic, secure upload via PADtrax LE software	Not supported
Audit Logging	Comprehensive logs of user activity, timestamps, serials, and transaction IDs	None
Bill Find Capability	Advanced bill find search tool — locate and verify serial numbers instantly across previous transactions or seized evidence records	Not supported

Why Agencies Choose PADtrax Zeus LE

Only PADtrax Zeus LE combines advanced hardware, purpose-built software, and national RISS MCN network connectivity to deliver total currency accountability, audit readiness, and compliance with evidence management standards.

From seizure to storage, every dollar is tracked, verified, and documented—giving your agency the accuracy, transparency, and confidence it deserves.
