HealthConnex

Smarter Infection Prevention. Better Resident Outcomes.

A purpose-built Infection Prevention and Control platform for long-term care and senior living facilities - helping your team detect infections faster, manage outbreaks with confidence, and spend less time on paperwork.

50%	**35%**	**10 hrs**	**15 sec**
FEWER OUTBREAKS	REDUCTION IN OPERATING COSTS	SAVED PER FACILITY / MONTH	TO LOG A SUSPECT CASE

Manual infection tracking is time-consuming, error-prone, and hard to communicate across teams. **IPAC Management from HealthConnex** replaces spreadsheets and paper-based workflows with a centralized, easy-to-use platform that gives clinicians real-time visibility into what's happening across their facility so they can act fast and protect the people in their care.

CORE FEATURES

Visual Floor Maps
See active infections and symptoms across your facility in real time. Identify clusters before they become outbreaks.

Real-Time Analytics & Reporting
Access infection rate dashboards, immunization tracking, and exportable reports - ready for any inspection.

Resident & Staff Surveillance
Track infections, lab results, and illness data for both residents and staff in one centralized platform.

EHR Integration
Seamlessly integrates with your existing electronic health record system to eliminate double documentation.

Outbreak Management
Detect, document, and manage outbreaks quickly with built-in McGeers/IPAC Canada criteria and automated line listing.

Immunization Management
Track resident and staff immunization records in one place, with reporting tools to meet compliance requirements.

Antimicrobial Stewardship
Track antibiotic use, time-outs, and days of therapy to support best practices and reduce resistance.

Built-In Hand Hygiene & PPE Audits
Complete Hand Hygiene and PPE Use audits with ease - automated compliance reports make reviews easy as 1-2-3.

> "Working with HealthConnex has been a great experience for our organization. The team are quick to respond, solution focused, and genuinely easy to work with. We love how user friendly and customizable the system is — it adapts to our needs rather than forcing us to adapt to it. The team has also been incredibly receptive to feedback and has implemented many of the features we've requested, which speaks volumes about their commitment to customer partnerships. We've just started using MyAudits and are already excited about the value it's bringing. We're very happy with HCX and appreciate the strong partnership we've easily built."
