TO LEARN THE FULL PLATFORM	CUSTOMIZABLE AUDIT TEMPLATES	MONTHLY RESPONSES	PAPER REQUIRED

Paper audits get lost, go stale, and tell you almost nothing in real time. **MyAudits** replaces paper with a fast, intuitive digital experience your team can use on any device - collecting better data, faster, and turning it into actionable reports in seconds. Whether you're running a single facility or managing quality programs across an enterprise, MyAudits scales with you.

CORE FEATURES

Custom Audit Builder
Build audits for any quality program in minutes, or ask our AI assistant to build with industry best practice in mind. Create up to 100 custom audits.

Automated Reporting Dashboards
Audit results compile automatically. Drill into observation data by audit type, location, or any time period - with summaries for corrective actions, schedules, and scores.

Mobile Web Application
Works seamlessly on any device - Phone, tablet, or desktop. Collect data wherever care happens.

Corrective Actions
Flag issues, assign owners, set due dates, and track resolution all within the platform. Close the loop on every finding.

Audit Schedules & Reminders
Configure recurring schedules and push notifications to keep your team on track and ensure nothing falls through the cracks.

Guest / QR Code Responses
Send audits or surveys to visitors and staff without requiring a login - via QR code or direct link. Perfect for self-assessments.

PAPER VS. MYAUDITS

❌ Paper Audits

- ✗ Manual data entry and tallying
- ✗ Results delayed by days or weeks
- ✗ Difficult to analyze trends over time
- ✗ Easy to lose, damage, or misplace
- ✗ No accountability for corrective actions
- ✗ Reporting takes hours of admin time

✅ MyAudits

- ✔ Data captured in real time on any device
- ✔ Reports available instantly, automatically
- ✔ Trend analysis and dashboards built in
- ✔ Cloud-based - always secure and accessible
- ✔ Corrective actions tracked with owners & deadlines
- ✔ Saves hours of admin time every month
