- Thompson, Siegel & Walmsley LLC ("TSW") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. TSW has been independently verified for the periods January 1, 2011 through December 31, 2024. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.
- TSW is a Delaware limited liability company and an SEC registered investment adviser founded in 1969 in Richmond, Virginia, investing in domestic and international equities and fixed income securities for a broad array of clients. Since 1985 TSW has operated under a parent company structure. Currently, TSW operates as an indirect wholly owned subsidiary of Perpetual Limited.
- TSW's list of composite descriptions and definitions, pooled fund descriptions for limited distribution pooled funds, and broad distribution pooled funds list are available upon request.
- TSW's policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.
- The composite includes fully discretionary segregated portfolios greater than \$1 million managed with the Emerging Markets strategy. The strategy invests mostly in large and mid cap companies located, primarily, in emerging markets. Beginning February 1, 2021, the composite consists of non-fee paying, fully discretionary portfolios.
- The Gross and Net performance stated above reflects the deduction of trading expenses and the reinvestment of dividends and other income. Portfolio returns are net of all foreign non-reclaimable withholding taxes. Reclaimable withholding taxes are recognized if and when received. Gross performance does not include the deduction of investment management fees. Net performance reflects investment management fees charged based on the standard fee schedule below applied to any non-fee-paying portfolio in the composite and actual management fees charged for fee-paying portfolios in the composite. TSW's portfolio level performance process uses a daily time-weighted, Modified Dietz, rate of return calculation, on a trade date basis using accruals for dividends and fixed income, while treating cash flows as beginning of day transactions. Daily performance periods are geometrically linked to create the monthly performance return.
- TSW requests that any third party investment management consultant provide our performance data only on a one-on-one basis. Please disclose the following: Gross performance results are presented after trading expenses but before investment management fees. The investment management fees for a segregated portfolio, in this strategy, are generally billed quarterly based on the annual fee schedule shown below:

First \$25,000,000	0.90%
Next \$25,000,000	0.85%
Over \$50,000,000	0.75%

 This composite includes one pooled fund:

TSW Emerging Markets Fund	Advisory Fee	Expense Ratio
	0.80%	0.99%

 A portfolio's return will be reduced by these and other related expenses. The actual fee charged to an individual portfolio may vary from the stated schedule, depending on a number of factors, including type and size.
- The Emerging Markets composite creation date: January 31, 2021, Inception date: January 31, 2021. There was a break in performance from October 1, 2021 through January 31, 2022. During that period, there were no portfolios in the composite. Composite performance began again on February 1, 2022. All portfolios represented in this composite were valued at calendar month-end. Annual rates of return are calculated by linking the monthly returns using trade date valuation. All performance is expressed in U.S. dollars.
- The benchmark utilized is the MSCI Emerging Markets Index and is based on total return. The MSCI Emerging Markets Index captures large and mid cap representation across 27 Emerging Markets countries. The index covers approximately 85% of the free float-adjusted market capitalization in each country. Country weight information is available upon request. The benchmark returns include interest, dividends, and other earned income, but do not include any trading expenses, management fees or any other expenses. Sources of foreign exchange rates may be different between the composite and the benchmark. The benchmark return is net of withholding taxes from a U.S. tax perspective. It is not possible to invest directly in an index.
- Internal dispersion is calculated using the equal-weighted standard deviation of monthly gross-of-fee returns of all portfolios that were included in the composite for the full year. The statistical measurement of internal dispersion for composites with five (5) or less portfolios for the year is not considered meaningful and, accordingly, has not been presented. "n.m." = "Not Meaningful." The three-year annualized ex-post standard deviation, using monthly gross-of-fee returns, measures the variability of the composite and the benchmark returns over the preceding 36-month period. It is not required to be presented when a full 36-months of composite performance is not yet available.
- Historical performance results are not indicative of the future investment performance of TSW.
