# 1Q 2026

## Performance Composite Summary\*

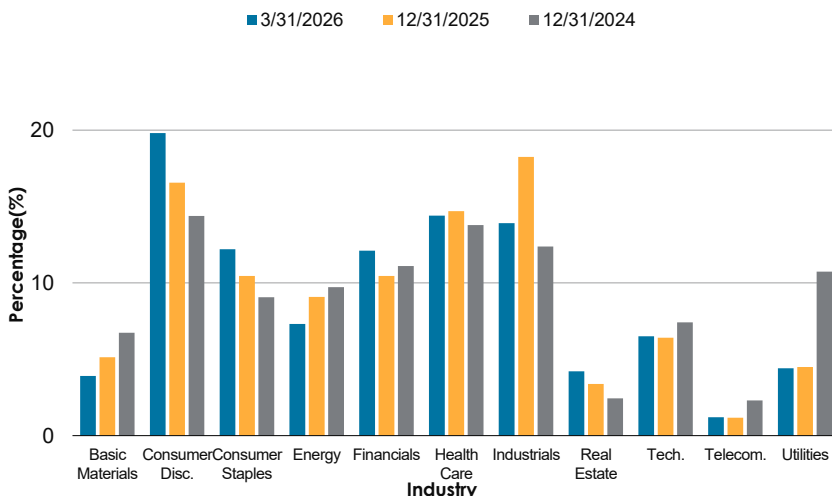

Annualized	1Q 2026	1 Year	3 Years	5 Years	7 Years	10 Years	Since Inception
Gross of Fees	1.17	13.85	11.36	7.42	9.18	8.49	9.51
Net of Fees	0.96	12.90	10.43	6.52	8.26	7.58	8.59
Benchmark	4.77	25.43	14.46	7.64	9.88	9.87	8.79

Benchmark: Russell 2500™ Value Index. Inception date: 12/31/2003. \*Periods greater than one year are annualized. Performance represents the SMID Cap Value composite. Performance is shown gross and net of management fees and includes reinvestment of dividends and other income. Gross returns will be reduced by investment advisory fees and other expenses that are incurred in the management of the account. Net of fee performance is calculated by deducting the highest applicable advisory fee. Past performance is no guarantee of future results. TSW's advisory fees are described in its Form ADV Part 2A. It is not possible to invest directly in an index. Please see "Important Disclosure Information" and "Index Definitions" at the end of this document.

Characteristics	Portfolio	Benchmark

\*Attribution is representative of a single account in the SMID Cap Value composite and is not a performance presentation. TSW does not provide industry-specific advisory services. Composite performance returns are transaction-based, while attribution is holdings-based. Variations in accounts holding foreign securities may result from differences in daily spot rates used to calculate returns. Attribution is presented gross of fees, includes reinvestment of dividends and other income, but excludes transaction costs and investment advisory fees. Portfolio characteristics (e.g., yield, coupon rate, contribution to return, Sharpe ratio) are calculated on a gross basis. Net and gross performance figures show the effect of fees and expenses. Actual portfolio returns will be reduced by advisory fees and other expenses. For detailed composite performance and disclosures, please refer to the GIPS® Performance Presentation and Performance Summary page. Please see "Important Disclosure Information" and "Index Definitions" at the end of this document.

n.m. = Not Meaningful; (Reported in: USD). HF=Highest Fee. See Item 6 below.

**Benchmark:** Russell 2500™ Value

- Thompson, Siegel & Walmsley LLC ("TSW") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. TSW has been independently verified for the periods January 1, 2011 through December 31, 2024. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The SMID Cap Value composite has had a performance examination for the periods January 1, 2011 through December 31, 2024. The verification and performance examination reports are available upon request.
- TSW is a Delaware limited liability company and an SEC registered investment adviser founded in 1969 in Richmond, Virginia, investing in domestic and international equities and fixed income securities for a broad array of clients. Since 1985 TSW has operated under a parent company structure. Currently, TSW operates as an indirect wholly owned subsidiary of Perpetual Limited.
- TSW's list of composite descriptions and definitions, pooled fund descriptions for limited distribution pooled funds, and broad distribution pooled funds list are available upon request.
- TSW's policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.
- The composite includes fully discretionary segregated portfolios greater than \$500K managed with the SMID Cap Value strategy that invests mostly in undervalued small and mid-sized, US exchange-listed, equity securities.
- The Gross and Net performance stated above reflects the deduction of trading expenses and the reinvestment of dividends and other income. Portfolio returns are net of all foreign non-reclaimable withholding taxes. Reclaimable withholding taxes are recognized if and when received. Gross performance does not include the deduction of investment management fees. Net-of-fees returns are calculated by deducting the highest applicable advisory fee from the monthly gross composite return since inception. Net-of-fees returns were previously calculated using actual investment management fees and changed to the current methodology (using the highest applicable advisory fee) effective 12/31/2025 retroactively. TSW's portfolio level performance process uses a daily time-weighted, Modified Dietz, rate of return calculation, on a trade date basis using accruals for dividends and fixed income, while treating cash flows as beginning of day transactions. Daily performance periods are geometrically linked to create the monthly performance return.
- TSW requests that any third party investment management consultant provide our performance data only on a one-on-one basis. Please disclose the following: Gross performance results are presented after trading expenses but before investment management fees. The investment management fees for a segregated portfolio, in this strategy, are generally billed quarterly based on the annual fee schedule shown below:

First \$ 50,000,000	0.85%
Next \$ 50,000,000	0.75%
Over \$100,000,000	0.65%

This composite includes two pooled funds:	Advisory Fee	Expense Ratio
TSW SMID Cap Value Collective Trust	0.85%	0.85%
TSW SMID Cap Value Equity Fund	0.85%	0.85%

A portfolio's return will be reduced by this and other related expenses. The actual fee charged to an individual portfolio may vary from the stated schedule depending on a number of factors including type and size.
- The SMID Cap Value composite creation date: December 31, 2003, Inception date: December 31, 2003. All portfolios represented in this composite are valued at calendar month-end. Annual rates of return are calculated by linking the monthly returns using trade date valuations. All performance is expressed in U.S. dollars.
- The benchmark utilized is the Russell 2500™ Value Index and is based upon total return. The Russell 2500™ Value Index measures the performance of those Russell 2500™ companies with lower price-to-book-ratios and lower forecasted growth values. The Russell 2500™ Index measures the performance of the 2,500 smallest companies in the Russell 3000® Index. The benchmark returns include dividends and other earned income, but do not include any trading expenses, management fees or any other expenses. The benchmark returns are not covered by the report of independent verifiers. It is not possible to invest directly in an index.
- Internal dispersion is calculated using the equal-weighted standard deviation of monthly gross-of-fee returns of all portfolios that were included in the composite for the full year. The statistical measurement of internal dispersion for composites with five (5) or less portfolios for the year is not considered meaningful and, accordingly, has not been presented. "n.m" = "Not Meaningful." The three-year annualized ex-post standard deviation, using monthly gross-of-fee returns, measures the variability of the composite and the benchmark returns over the preceding 36-month period. It is not required to be presented when a full 36-months of composite performance is not yet available.
- The significant cash flow policy for this composite states: Portfolios with a net cash flow that exceed 25% of the beginning market value of the portfolio for the month are removed from the composite. Portfolios are returned to the composite the following month, provided there no additional significant flows and the portfolio continues to meet criteria for composite inclusion.
- Historical performance results are not indicative of the future investment performance of TSW.

**IMPORTANT DISCLOSURE INFORMATION**

**GENERAL DISCLOSURE:** Data as of 3/31/2026 unless otherwise noted. Comments and general market related projections are based on information available at the time of writing and believed to be accurate; are for informational purposes only, are not intended as individual or specific advice, may not represent the opinions of the entire firm and may not be relied upon for future investing. Certain information contained in this material represents or is based upon forward-looking statements, which can be identified by the use of terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue” or “believe” or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of an Account may differ materially from those reflected or contemplated in such forward-looking statements. Ned Davis charts are created by a third-party and are exempt from the internal compliance review process. Investors are advised to consult with their investment professional about their specific financial needs and goals before making any investment decisions. Past performance is not indicative of future results.

**BENCHMARK SOURCE:** Russell Investments. Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group.

**HOLDINGS DISCLOSURE:** The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account's portfolio at the time you receive this report or that securities sold have not been repurchased. The representative account has/may change over time. The securities discussed may not represent an account's entire portfolio and in the aggregate may represent only a small percentage of the portfolio's holdings. It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable, or that the investment recommendations or decisions made in the future will be profitable or will equal the investment performance of the securities discussed herein. Please note that this strategy invests in securities outside of the Index. Please note that this strategy invests in securities outside of the Index. A complete list of every holding and every holding's contribution to performance during the period and the methodology of the contribution to return is available by contacting us at [TSWinfo@tswinvest.com](mailto:TSWinfo@tswinvest.com).

**INDUSTRY WEIGHTINGS & PORTFOLIO CHARACTERISTICS DISCLOSURE:** The industry weightings and portfolio characteristics are presented as of the date shown on this presentation and may change without notice. The representative account has/may change over time. A complete list of industry weightings and individual security positions are available on request by contacting us at [TSWinfo@tswinvest.com](mailto:TSWinfo@tswinvest.com).

**EQUITY SECURITIES RISK:** Equity securities generally have greater risk of loss than debt securities. Stock markets are volatile, and the value of equity securities may go up or down, sometimes rapidly and unpredictably. The value of equity securities fluctuates based on real or perceived changes in a company's financial condition, factors affecting a particular industry or industries, and overall market, economic and political conditions. If the market prices of the equity securities owned by the strategy fall, the value of your investment in the strategy will decline. Your portfolio may lose its entire investment in the equity securities of an issuer. A change in financial condition or other event affecting a single issuer may adversely impact securities markets as a whole.

**PRINCIPAL RISK:** Risk is inherent in all investing. Many factors and risks affect performance. The value of your investment, as well as the amount of return you receive on your investment, may fluctuate significantly day to day and over time. You may lose part or all of your investment in your portfolio or your investment may not perform as well as other similar investments. An investment in the strategy is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. **You may lose money if you invest in this strategy.**

**VALUE INVESTING RISK:** The prices of securities TSW believes are undervalued may not appreciate as anticipated or may go down. The value approach to investing involves the risk that stocks may remain undervalued, undervaluation may become more severe, or perceived undervaluation may actually represent intrinsic value. Value stocks as a group may be out of favor and underperform the overall equity market for a long period of time, for example, while the market favors “growth” stocks.

**For additional information regarding potential risks to your investment please see risk disclosures in our Form ADV Part 2A found here <https://www.tswinvest.com>.**

**INDEX DEFINITIONS**

**RUSSELL 2500™ VALUE INDEX:** The Russell 2500™ Value Index measures the performance of the small to mid-cap value segment of the U.S. equity universe. It includes those Russell 2500 companies with relatively lower price-to-book ratios, lower I/B/E/S forecast medium term (2 year) growth and lower sales per share historical growth (5 years).
