

Bandalong Bandit® Litter Trap

Designed To Capture Floating Litter In Smaller Waterways

The Bandalong Bandit® Litter Trap is the compact version of our widely recognized Bandalong Litter Trap®. Leveraging over 11 years of expertise in litter trap technology across the US, the Bandit is tailored for smaller creeks and streams that are heavily burdened by floating debris.

Specifications

- Dimensions: 46" Width x 75" Length
- Installation: Lightweight design allows for straightforward installation.

Key Features

- Operational Year-Round: Functions continuously throughout the year, 24/7/365.
- Ease of Use: Manual debris removal process, no mechanical assistance required.
- Environmentally Friendly: Does not impede aquatic wildlife, alter water flow, or increase flood risks.

Advantages

- Designed for Small Waterways: Ideal for creeks and streams.
- Portable: Easy to move and install wherever needed.
- Customer-Friendly Installation: Can be set up quickly by customers without professional help.
- Adaptability: Customizable to meet site-specific requirements and challenges.
- Efficient Litter Removal: Offers a variety of options for debris removal.
