

Aegis ESG

LARGE MESSAGE INDICATOR EXIT DEVICE TRIM

The TownSteel Promise

We have built our company around the promise of creating durable hardware solutions for your projects. Our complete product line is the result of decades of determined engineering. This allows TownSteel to provide you with the right product to meet your exacting specifications. With end-to-end customer support, you will find that TownSteel is the ideal company for you to partner with. Check us out at townsteel.com for more information!

The Aegis ESG is a versatile and durable exit device trim with large message indicators on both sides of the trim. Designed from the m-Kestros Series, it is designed to pair with many existing exit devices, offering a cost-effective solution for retrofitting and upgrading security without replacing entire exit device systems. Featuring multiple functions for many different applications, it enhances security by restricting access from unauthorized personnel. The ESG delivers both convenience and reliable protection to high traffic areas.

Cover and Table of Contents features Aegis ESG Rim exit device indicator trim with F08T (Entrance) function in Satin Stainless Steel finish.

Features

The Aegis ESG trim is well suited for either new construction or retrofit projects. It has been designed to perfectly fit into existing devices making this security upgrade fast and easy. Intended for use in high-traffic areas, including front entrances, offices, hospitals, classrooms, back exits, hallways, and school gymnasiums.

Features	Benefits
ANSI / BHMA A156.3	Grade 1 certified exit device trim
UL10C	Certified UL10(C) 3-hour fire rating
ADA compliant	Meets requirements of the Americans with Disabilities Act
Flexible retrofit compatibility	The Aegis ESG's indicator add-on allows easy and affordable retrofitting on existing devices without purchasing entire new sets of exit devices. Indicator add-on is compatible with TownSteel 1100/1200/8900/9700 exit devices, Marks® M9900, Detex® 10, Von Duprin® VD22/99, Sargent® 8000, Corbin Russwin® ED5000, Dorma® 9000, Precision® PHI 2000, Falcon® 20, Hager® 4700, Cal Royal® 2200, and Accentra® (Yale) 2100/6100/7100. Note: Exit Device Formats are for Rim and SVR Less Bottom Rod only.
High visibility status indicator	Large message indicator on both sides of the opening allows occupants or personnel in the hallway to identify a lock's status in an instant.
Indicator labels	Indicator labels used are dependent on the function*. See Functions and Message on page 12
Heavy duty stainless steel trim	Cast and machined trim provides a barrier to most adverse conditions
Exit device trim configurations	Available formats include: single cylinder/blank, single cylinder/thumbturn, emergency release/thumbturn, or cylinder/cylinder.
Designed to be used without dogging mechanism	TownSteel's Aegis ESG exit device lever trim is designed to only be used on exit devices without any dogging mechanism. If the device has dogging, please remove or disable the dogging mechanism prior to installing the ESG. Any party/person who decide to not remove or disable the dogging mechanism is acting on their own accord and is liable for the functionality of their opening.

*For other message options please consult factory

Functions

Out	In	Series / Function	Type	ANSI No.	Message / Color*	Description
		ESG-08	Entrance	F08	UNLOCKED (GREEN) / LOCKED (RED)	Entrance by lever. Outside key cylinder locks and unlocks outside lever. This also changes indicators to LOCKED/UNLOCKED.
		ESG-08T	Entrance with Turn		UNLOCKED (GREEN) / LOCKED (RED)	Entrance by lever. Outside key cylinder or inside thumb turn locks and unlocks outside lever. This also changes indicators to LOCKED/UNLOCKED.
		ESG-09	Nightlatch Storeroom	F09	UNLOCKED (GREEN) / LOCKED (RED)	Entrance by lever only when outside key cylinder is in use. Key removable only when outside lever trim is locked. Indicators normally display LOCKED. When key is in use, indicator will show "UNLOCKED".
		ESG-10	Intruder	F10**	UNLOCKED (GREEN) / LOCKED (RED)	Entrance by lever. Inside or outside cylinder locks or unlocks lever. This also changes indicators to LOCKED/UNLOCKED.

*For custom request of status indicator, message, or color, please consult factory.

**ESG-10 pairs with inside in 626 finish standard, consult with factory for specific finish requirements
